FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase/decrease** either **revenues/ expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will increase revenues.

\$100,000

This rule will increase revenues an estimated \$100,000 annually. However, because most 2003 bingo license applications have already been submitted to the Attorney General, the rule will have minimal effect on the Attorney General's budget during 2003. In 2004, revenues should increase by an estimated \$100,000.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

No expenditures.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

The estimated cost of compliance for each organization affected by the rule will not exceed \$200.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
