FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase/decrease** either **revenues /expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will increase expenditures.

\$400,000

Development projects having one full-time staff to administer the InvestOhio Program. The salary, fringe and associated indirect costs as well as an allocation for information technology systems development and a small allocation for travel and training activities support an annual program budget of \$200,000. The Director of Development may issue up to \$10 million of Small Business Investment Certificates during a fiscal biennium. These certificates result in a tax credit for Eligible Investors. The \$10 million in possible tax credits are not an expenditure of Development; however the tax credits will impact state tax revenues.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Development will use the GRF 195415 line item for the current biennium to pay the projected costs of the administrative expenditures and the M087 195435 line item for the information technology systems development costs.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

The cost of compliance to directly affected persons includes the costs of application, accounting, reporting and maintenance of records. Such costs are expected to be negligible compared to the tax credit benefits available to the Eligible Investor through the InvestOhio Program. Actual costs will vary depending on the level of professional services the participant elects to use.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
