

123:1-35-04

Payrolls prepared by data processing methods.

Where payrolls are prepared by electronic data processing equipment, the director may develop methods for controlling input or verifying output of such equipment to assure compliance with all relevant laws and rules. When this is done, the requirements of 123:1-35-01, 123:1-35-02 and 123:1-35-03 may be waived. All payrolls prepared by these methods shall be subject to special audit at any time.
