This includes structures, facilities and conditions exempt from or not otherwise subject to Chapters 3781. or 3791. of the Revised Code.

(b) 102.1.2 Agricultural uses and locations. The construction and design provisions of this code, including any construction permit requirements, shall not apply to structures:

- (i) subject to section 3781.061 of the Revised Code, or

(d) 104.10.4. As used in this section, the phrases "substantial risk" and "serious physical harm" have the same meaning as the definitions of such phrases in sections 2901.01(A)(6) and (A)(8) of the Revised Code.

(11) 104.11 Authority at fires and other emergencies. The fire chief or officer of the fire department in charge at the scene of a fire or other emergency involving the protection of life or property, or any part thereof, shall have the authority to direct such operation as necessary to extinguish or control any fire, perform any rescue operation, investigate the existence of suspected or reported fires, gas leaks or other hazardous conditions or situations, or take any other action necessary in the reasonable performance of duty. In the exercise of such power, the fire chief is authorized to prohibit any person, vehicle, vessel or thing from approaching the scene and is authorized to remove, or cause to be removed or kept away from the scene, any vehicle, vessel or thing that could impede or interfere with the operations of the fire

- (b) 104.11.2 Obstructing operations. Persons shall not obstruct the operations of the fire department in connection with extinguishment or control of any fire, or actions relative to other emergencies, or disobey any lawful command of the fire chief or officer of the fire department in charge of the emergency, or any part thereof, or any lawful order of a police officer assisting the fire department.

Persons so notified shall immediately leave the structure or premises and shall not enter or re-enter until authorized to do so by the fire department official in charge of the incident. For the purposes of this code, an emergency response incident involving an actual first responder services or ongoing fires, explosions or other hazardous events are, due to the actual occurrence of an emergency, distinguishable from events referenced in section 3737.44 of the Revised Code.

In addition to any discretionary permit required by the local fire code official, an annual operational permit shall be obtained from the state fire marshal for the storage, use, manufacture, processing or handling of ammonium nitrate under this paragraph.

Exceptions:

1. This requirement for an annual operational permit from the state fire marshal shall not apply to ammonium nitrate within the state of Ohio that is subject to a permit under paragraph (E)(1)(a)(i)(a)(105.1.1.1.1) of this code.

2. This requirement for an annual operational permit from the state fire marshal shall not apply to ammonium nitrate that is otherwise regulated by DOTn.

(a) A prescribed period.

(b) Until renewed or revoked.

(ii) Construction permit. A construction permit allows the applicant to install or modify systems and equipment for which a permit is to be issued.

(c) 105.1.3 Multiple permits for the same location. Where more than one permit is required for the same location, the fire code official is authorized to consolidate such permits into a single permit provided that each provision is listed in the permit.

(e) 105.1.5 Repairs. Application or notice to the fire code official is not required for ordinary repairs to structures, equipment or systems. Such repairs shall not include the cutting away of any wall, partition or portion thereof, the removal or change of any required means of egress, or rearrangement of parts of a structure affecting the egress requirements; nor shall any repairs include addition to, alteration of, replacement or relocation of any standpipe, fire protection water supply, automatic sprinkler system, fire alarm system or other work affecting fire protection or life safety.

(f) 105.1.6 Annual permit. designated.

(2) 105.2 Application. Application for a permit required by this code shall be made to the fire code official in such form and detail as prescribed by the fire code official. Applications for permits shall be accompanied by such plans as prescribed by the fire code official. The requirement for plan review for fire protection systems in structures regulated by the building code as listed in rule 1301:7-7-80 of the Administrative Code submitted for plan review in accordance with this paragraph is subject to and does not supersede or otherwise conflict with the requirements of paragraph (D)(2)(a)(104.2.1) of this rule.

(a) 105.2.1 Refusal to issue permit. If the application for a permit describes a use that does not conform to the requirements of this code and other pertinent laws and ordinances, the fire code official shall not issue a permit, but shall return the application to the applicant with the refusal to issue such permit. Such refusal shall, where requested, be in writing and shall contain the reasons for refusal.

(b) 105.2.2 Inspection authorized. Before a new operational permit is approved, the fire code official is authorized to inspect the receptacles, vehicles, buildings, devices, premises, storage spaces or areas to be used to determine compliance with this code or any operational constraints required.

(c) 105.2.3 Time limitation of application. An application for a permit for any proposed work or operation shall be deemed to have been abandoned 180 days after the date of filing, unless such application has been diligently prosecuted or a permit shall have been issued; except that the fire code official is authorized to grant one or more extensions of time for additional periods not exceeding 90 days each. The extension shall be requested in writing and justifiable cause demonstrated.

(d) 105.2.4 Action on application. The fire code official shall examine or cause to be examined applications for permits and amendments thereto within a reasonable time after filing. If the application or the construction documents do not conform to the requirements of pertinent laws, the fire code official shall reject such application in writing, stating the reasons therefore. If the fire code official is satisfied that the proposed work or operation conforms to the requirements of this code and laws and ordinances applicable thereto, the fire code official shall issue a permit therefore as soon as practicable.

(3) 105.3 Conditions of a permit. A permit shall constitute permission to maintain, store or handle materials; or to conduct processes that produce conditions hazardous to life or property; or to install equipment utilized in connection with such activities; or to install or modify any fire protection system or equipment or any other construction, equipment installation or modification in accordance with the provisions of this code where a permit is issued. When issued, such permission shall not be construed as authority to violate, cancel or set aside any of the provisions of this code or other applicable regulations or laws of the jurisdiction.

(a) 105.3.1 Expiration. An operational permit, when issued, shall remain in effect until reissued, renewed, or revoked or for such a period of time as specified in the permit. Construction permits, when issued, shall automatically become invalid unless the work authorized by such permit is commenced within 180 days after its issuance, or if the work authorized by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced. Before such work recommences, a new permit shall be first obtained and the fee to recommence work, if any, shall be one-half the amount required for a new permit, when issued, for such work, provided that changes have not been made and will not be made in the original construction documents for such work, and

provided further that such suspension or abandonment has not exceeded one year. When issued, permits are not transferable and any change in occupancy, operation, tenancy or ownership shall require that a new permit be issued.

(b) 105.3.2 Extensions. A permittee holding an unexpired permit shall have the right to apply for an extension of the time within which the permittee will commence work under that permit where work is unable to be commenced within the time required by this paragraph for good and satisfactory reasons. The fire code official is authorized to grant, in writing, one or more extensions of the time period of a permit for periods of not more than 180 days each. Such extensions shall be requested by the permit holder in writing and justifiable cause demonstrated.

(c) 105.3.3 Occupancy.

(i) 105.3.3.1 Acceptance testing of fire protection systems. Prior to the issuance by the building official of any certificate of occupancy for any building subject to paragraph (D)(2)(a)(104.2.1) of this rule, the responsible person shall notify the fire code official to be present to witness the acceptance testing of all fire protection systems.

(ii) 105.3.3.2 Final inspection. Prior to the issuance by the building official of any certificate of occupancy for any building subject to paragraph (D)(2)(a)(104.2.1) of this rule, the responsible person shall notify the fire code official to conduct a final inspection. The fire code official shall report any deficiencies of the fire protection systems to the building official.

(iii) 105.3.3.3 Minimum conditions for safe occupancy. No structure, premises or building, or any portion thereof, shall be occupied unless:

(a) 105.3.3.3.1 Such structures, premises or buildings or portions thereof are in substantial compliance with the applicable provisions of this code and the building code as referenced in rule 1301:7-7-80 of the Administrative Code.

(b) 105.3.3.3.2 The structure, premises or building, or any portion thereof, does not constitute a distinct or serious hazard to life or property in accordance with the provisions of this code.

(d) 105.3.4 Conditional approvals and permits. Where approval by the fire code official or permits are required and upon the request of the applicant, the fire code official is authorized to issue a conditional approval or permit to engage in the permitted activity or use provided that the permitted activity or use is safe and does not endanger life or public welfare. The fire code official shall notify the applicant of any limitations or restrictions necessary to keep the regulated activity or use safe. The holder of a conditional approval or permit shall proceed only to the point for which approval has been given, at the applicant's own risk and without assurance that approval for the occupancy or the utilization of the entire premises, equipment or operations will be granted.

(e) 105.3.5 Posting the permit. Issued permits shall be kept on the premises designated therein at all times and shall be readily available for inspection by the fire code official.

(f) 105.3.6 Compliance with code. The issuance or granting of a permit shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this code or any other ordinance of the jurisdiction. Permits presuming to give authority to violate or cancel the provisions of this code or other ordinances of the jurisdiction shall not be valid. The issuance of a permit based on construction documents and other data shall not prevent the fire code official from requiring the

correction of errors in the construction documents and other data. Any addition to or alteration of approved construction documents shall be approved in advance by the fire code official, as evidenced by the issuance of a new or amended permit.

(i) 105.3.6.1 For structures regulated by the building code as listed in rule 1301:7-7-80 of the Administrative Code. If a building official issues a permit, plan approval or certificate of occupancy for a structure in accordance with the building code as listed in rule 1301:7-7-80 of the Administrative Code for a structure regulated by this code, the responsible person is not exempted from compliance with this code, including provisions for fire safety functions. If a review of fire protection system plans in accordance with paragraph (D)(2)(a)(104.2.1) of this rule is not completed or a permit for construction is not issued pursuant to this code, the absence of such review or permit does not prohibit construction from occurring in accordance with the building official's approval.

(g) 105.3.7 Information on the permit. The fire code official shall issue all permits required by this code on an approved form furnished for that purpose. The permit shall contain a general description of the operation or occupancy and its location and any other information required by the fire code official. Issued permits shall bear the signature of the fire code official or other approved legal authorization.

(h) 105.3.8 Validity of permit. The issuance or granting of a permit shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this code or of any other ordinances of the jurisdiction. Permits presuming to give authority to violate or cancel the provisions of this code or other ordinances of the jurisdiction shall not be valid. The issuance of a permit based on construction documents, operational documents and other data shall not prevent the fire code official from requiring correction of errors in the documents or other data.

(4) 105.4 Construction documents. Construction documents shall be in accordance with this paragraph. The requirement for plan review of fire protection systems in structures regulated by the building code as listed in rule 1301:7-7-80 of the Administrative Code submitted for plan review in accordance with this paragraph is subject to and does not supersede or otherwise conflict with the requirements of paragraphs (D)(2)(a)(104.2.1) of this rule.

(a) 105.4.1 Submittals. Subject to the provisions of paragraph (D)(2)(a)(104.2.1) of this rule, construction documents and supporting data shall be submitted in two or more sets with each application for a permit and in such form and detail as required by the fire code official. The construction documents shall be prepared by an appropriate person where required by the Revised Code.

Exception: The fire code official is authorized to waive the submission of construction documents and supporting data not required to be prepared by a registered design professional if it is found that the nature of the work applied for is such that review of construction documents is not necessary to obtain compliance with this code.

(i) 105.4.1.1 Examination of documents. The fire code official shall examine or cause to be examined the accompanying construction documents and shall ascertain by such examinations whether the work indicated and described is in accordance with the requirements of this code.

(b) 105.4.2 Information on construction documents. Construction documents shall be drawn to scale upon suitable material. Electronic media documents are allowed to be submitted where approved by the fire code official. Construction documents shall be of sufficient clarity to indicate the location,

nature and extent of the work proposed and show in detail that it will conform to the provisions of this code and relevant laws, ordinances, rules and regulations as determined by the fire code official.

(i) 105.4.2.1 Fire protection system shop drawings. Subject to the provisions of paragraph (D)(2)(a)(104.2.1) of this rule, shop drawings for the fire protection system(s) shall be submitted to indicate compliance with this code and the construction documents and shall be approved prior to the start of installation. Shop drawings shall contain all information as required by the referenced installation standards in rule 1301:7-7-09 of the Administrative Code.

(c) 105.4.3 Applicant responsibility. It shall be the responsibility of the applicant to ensure that the construction documents include all of the fire protection requirements and the shop drawings are complete and in compliance with the applicable codes and standards.

(d) 105.4.4 Approved documents. Construction documents reviewed by the fire code official in accordance with paragraph (D)(2)(a)(104.2.1) of this rule or construction documents approved by the fire code official are reviewed and approved with the intent that such construction documents comply in all respects with this code. Review and approval by the fire code official shall not relieve the applicant of the responsibility of compliance with this code.

(i) 105.4.4.1 Phased approval.  - (i) Refuse to issue a license, whether it is a renewal or a new license, unless a hearing was held before the refusal to issue such license.

Ministerial acts by the state fire marshal include not issuing a license where the agency has no discretion to take any other action on an application, including the failure of applicant to submit the proper license fee with an application and other similar matters.

(3) 122.3 Chapter 119. hearings: notice.

(a) 122.3.1 Written notice of intended action. Whenever the state fire marshal proposes to take an action that the Ohio general assembly has expressly made subject to the administrative adjudication procedure outlined in Chapter 119. of the Revised Code, the state fire marshal shall give notice of the intended action to the affected party informing the affected party of the affected party's right to a hearing. Notice shall be given by registered mail, return receipt requested, and shall, at a minimum, include all of the following:

(i) The specific action or actions the state fire marshal intends to take;

(ii) The charges or other reasons for the proposed action or actions;

(iii) The statute or rule directly involved;

(iv) A statement informing the affected party that the affected party is entitled to a hearing if the affected party requests it within thirty days of the time of mailing the notice;

(v) A statement informing the affected party that at the hearing the affected party may appear in person or through an attorney;

(vi) A statement informing the affected party that the affected party or the affected party's attorney may present the affected party's position, arguments or contentions entirely in writing, and that at the hearing the affected party or the affected party's attorney may present evidence and examine witnesses appearing for and against the affected party; and

(vii) A statement informing the affected party that rules governing hearings in accordance with Chapter 119. of the Revised Code are found in rule 1301:7-7 of the Administrative Code.

(b) 122.3.2 The state fire marshal shall also mail a copy of the notice to the affected party's attorney or other representative of record. To qualify as an attorney or representative of record, the affected party or the attorney or representative must notify the state fire marshal, in writing, that the attorney or representative is to be designated the attorney or representative of record. The notification must include the address where the state fire marshal should mail the notice to the attorney or representative of record. The mailing of notice to the affected party's attorney or representative is not deemed to perfect service of the notice. Failure to mail a copy of the notice to the attorney or representative of record will not result in failure of otherwise perfected service upon the affected party. In those instances where an affected party is a corporation doing business in Ohio or is incorporated in Ohio, the mailing of notice to the corporation's statutory agent pursuant to sections 1701.07 and 1703.19 of the Revised Code will perfect service provided that all the requirements of paragraph (A)(3)(a)(122.3.1) of this rule have been complied with.

(c) 122.3.3 When any notice sent by registered mail pursuant to this rule is returned because the affected party fails to claim the notice, the state fire marshal shall send the notice by ordinary mail to the affected party at the affected party's last known address and shall obtain a certificate of mailing. Service by ordinary mail is complete when the certificate of mailing is obtained unless the notice is returned showing failure of delivery.

(d) 122.3.4 If any notice sent by registered or ordinary mail is returned for failure of delivery, the state fire marshal either shall make personal delivery of the notice by an employee or agent of the state fire marshal or shall cause a summary of the substantive provisions of the notice to be published

Note: for copyright claim information, please see the notice on the last page of this rule.

once a week for three consecutive weeks in a newspaper of general circulation in the county where the last known address of the affected party is located. When notice is given by publication, a proof of publication affidavit, with the first publication of the notice set forth in the affidavit, shall be mailed by ordinary mail to the affected party at the affected party's last known address and the notice shall be deemed received as of the date of the last publication. An employee or agent of the state fire marshal may make personal delivery of the notice upon a party at any time.

(e) 122.3.5 Refusal of delivery by personal service or by mail is not failure of delivery and service is deemed to be complete at the time of personal refusal or at the time of receipt by the state fire marshal of the refused mail as demonstrated by the state fire marshal time and date stamp. Failure of delivery occurs only when a mailed notice is returned by the postal authorities marked undeliverable, address or addressee unknown, or forwarding address unknown or expired.

(4) 122.4 Chapter 119. hearings: request for a hearing.

(a) 122.4.1 Any request for a hearing made as the result of notice issued pursuant to (V)(3)(122.3) of this rule must be made in writing and mailed or delivered to the state fire marshal in the manner indicated in the notice issued pursuant to (V)(3)(122.3) of this rule within thirty calendar days of the following, as applicable:

(i) The time of mailing the notice if notice is given pursuant to paragraph (V)(3)(a)(122.3.1) of this rule;

(ii) The date that service is complete if notice is given pursuant to paragraph (V)(3)(c)(122.3.3) or (V)(3)(e)(122.3.5) of this rule;

(iii) The date of the last publication if notice is given by publication pursuant to (V)(3)(d)(122.3.4) of this rule; or

(iv) The date of personal service.

(b) 122.4.2 If a request for a hearing is properly mailed to the state fire marshal, the request is deemed to have been made as follows:

(i) If the request is mailed by certified mail, as of the date stamped by the U.S. postal service on its receipt (PS form 3800 or any future equivalent postal service form).

(ii) If the request is mailed by regular U.S. mail, as of the date of the postmark appearing upon the envelope containing the request.

(iii) If the request is mailed by regular U.S. mail and the postmark is illegible or fails to appear on the envelope, as of the date of its receipt by the state fire marshal as evidenced by the state fire marshal's time stamp.

(c) 122.4.3 If a request for a hearing is made by facsimile transmission or by electronic mail to the state fire marshal, the request is deemed to have been made as of the date of its receipt as evidenced by the receipt date generated by the facsimile transmission or the date of receipt shown in the source code of the electronic mail received by the state fire marshal.

(d) 122.4.4 If a request for a hearing is personally delivered to the state fire marshal, the request is deemed to have been made as of the date of its receipt as evidenced by the state fire marshal's time

stamp.

(e) 122.4.5 All requests for hearings must clearly identify both the affected individual involved and the proposed action that is being contested.

(5) 122.5 Computation of time deadlines. Section 1.14 of the Revised Code controls the computing of time deadlines imposed by Chapter 119. of the Revised Code and rule 1301:7-7 of the Administrative Code. The time within which an act is required by law to be completed is computed by excluding the first day and including the last day. When the last day falls on a Saturday, Sunday, or legal holiday, the act may be completed on the next succeeding day that is not a Saturday, Sunday, or legal holiday. When the last day to perform an act that is required by law is to be performed in a public office and that public office is closed to the public for the entire day, the act may be performed on the next succeeding day that is not a Saturday, Sunday, or legal holiday.

(6) 122.6 Chapter 119. hearings: appointment and powers of a hearing examiner and rules of practice.

(a) 122.6.1 Joinder of individual cases. On its own motion, or on motion of the appellant, the state fire marshal or the hearing examiner may join any individual cases where there exist incidents of common ownership or interest and where joinder would be appropriate for efficient and economic fairness to the parties.

(b) 122.6.2 Computation of time deadlines. Section 1.14 of the Revised Code controls the computing of time deadlines imposed by Chapter 119. of the Revised Code and rule 1301:7-7 of the Administrative Code. The time within which an act is required by law to be completed by excluding the first day and including the last day. When the last day falls on a Saturday, Sunday, or legal holiday, the act may be completed on the next succeeding day that is not a Saturday, Sunday, or legal holiday. When the last day to perform an act that is required by law is to be performed in a public office, and that public office is closed to the public for the entire day or before its usual closing time for that day, then the act may be performed on the next succeeding day that is not a Saturday, Sunday, or legal holiday.

(c) 122.6.3 Rules of practice in hearings conducted under this rule. In all hearings conducted under rule 1301:7-7 of the Administrative Code where a stenographic record is taken and where the stenographic record may be the basis of an appeal to a court of law, any person not appearing pro se and any corporation, partnership, association, or other entity must be represented by an attorney admitted to the practice of law in this state. The state fire marshal or the hearing officer may permit persons authorized to practice law in any jurisdiction other than Ohio to represent an appellant before the state fire marshal upon the motion of an attorney licensed to practice before the courts of this state. When the appellant is represented by more than one attorney, one attorney must be designated by the appellant as "trial counsel" and that attorney is deemed the appellant's attorney of record and is primarily responsible for the appellant's case at the hearing. No attorney representing an appellant is permitted to withdraw from any hearing proceeding before the state fire marshal without prior notice being served upon the state fire marshal and prior approval by the hearing examiner.

(d) 122.6.4 Authority of hearing examiners appointed by the department. The director may assign a hearing examiner to conduct any hearing held subject to rule 1301:7-7 of the Administrative Code. Any person assigned to be a hearing examiner must be admitted to the practice of law in the state of Ohio and have such other qualifications as the director deems necessary. The hearing examiner may

be an employee of the department or under contract to the department. The hearing examiner has the same powers as granted to the department in conducting the hearing. These powers include, but are not limited to, the following:

- (i) The general authority to regulate the course of the hearing and to issue orders governing the conduct of the hearing.
- (ii) The authority to administer oaths or affirmations, order the production of documents and the attendance of witnesses, call and examine witnesses in a reasonable and impartial manner, and to determine the order in which the participants to a hearing will present testimony and be examined in a manner consistent with essential fairness and justice.
- (iii) The authority to pass upon the admissibility of evidence, and rule on objections, procedural motions, and other procedural matters.
- (iv) The authority to issue orders intended to facilitate settlement of the case, including the scheduling of settlement conferences, directing the exchange of offers and demands, and any other actions that may facilitate the prompt resolution of disputed matters.
- (v) The authority to hold one or more pre-hearing conferences of the participants for the purpose of resolving issues that can be resolved by the participants including facilitation of a settlement, identifying the witnesses to be presented and the subject of their testimony, discussing possible admissions or stipulations regarding the authenticity of records, identifying and marking exhibits, and ruling on any procedural motions of the participants, resolving outstanding discovery claims, and clarifying the issues to be addressed at the hearing, and discussing any other matters deemed appropriate by the hearing examiner for the thorough and expeditious preparation and disposition of the case.
- (vi) The authority to take such other actions as might be necessary to avoid unnecessary delay, prevent presentation of irrelevant or cumulative evidence, prevent argumentative, repetitious, or irrelevant examination or cross-examination, and to assure that the hearing proceeds in an orderly and expeditious manner.
- (vii) Nothing in this rule, nor in any other state fire marshal rule, is to be construed as granting a hearing examiner the authority to dismiss any hearing. Nothing in this rule nor in any other state fire marshal rule limits the state fire marshal's authority to withdraw a proposal to enter an order of adjudication or limits the authority of the state fire marshal to define the scope of any hearing.
- (viii) Upon the motion of the hearing examiner, the state fire marshal, or the appellant, the hearing examiner may require the submission of briefs and memoranda at any time during the proceeding. The hearing examiner may limit these filings to one or more specific issues and may prescribe procedures and time schedules for their submission. All briefs, memoranda, motions, or other pleadings are subject to the following requirements:
 - (a) All briefs, memoranda, motions or other pleadings must be filed with the state fire marshal within three days after service. A certificate of service is to be attached attesting both to the service of a copy of the pleading on the opposing party and the provision of a copy to the hearing examiner. Service is governed by rule 5 (7/1/2007) of the Ohio rules of civil procedure except that any reference to "court" in rule 5 will be interpreted to refer to the

state fire marshal.

(b) Only those pleadings, order, and other papers filed with the state fire marshal will be a part of the official record.

(c) All briefs, memoranda, motions, or other pleadings and papers must be on eight-and-one-half-inch by eleven-inch paper and double-spaced.

(d) All orders, reports, recommendations, and rulings issued by the hearing examiner are to be signed, dated, and filed with the state fire marshal.

Exception: A hearing officer shall not have the power to consider any motion for a change in venue. Only the director or the state fire marshal or the state fire marshal's designee may consider and rule upon a motion for a change of venue.

(e) 122.6.5 Withdrawal of proposed adjudication orders. The state fire marshal, upon its own motion, at any time before the issuance of an order of adjudication, may withdraw its proposal to implement such an order without prejudice to the rights of the parties.

(7) 122.7 Chapter 119. hearings: subpoena issuance and enforcement.

(a) 122.7.1 The state fire marshal, upon its own motion or that of any appellant, will issue a subpoena requiring the attendance of witnesses and the production of books and records as are necessary for the purpose of conducting a hearing.

(b) 122.7.2 Upon the request of the appellant, the state fire marshal will issue a subpoena for any witness of a subpoena duces tecum to compel the production of any books, records, or papers. The state fire marshal will issue such subpoena in blank to a party requesting it, who is solely responsible for completing the subpoena form, including the address where the person is to be served, and returning it to the state fire marshal along with a written request for service. The written request along with the completed subpoena must be received by the state fire marshal no later than twenty-one business days before the commencement of the hearing or deposition, unless otherwise ordered for good cause shown. Upon its own initiative and for its own use, the state fire marshal may issue a subpoena for any purpose set forth in this rule or otherwise authorized by law. At its discretion, the state fire marshal may make available electronically a subpoena in blank and may authorize electronic submission of a completed subpoena.

(c) 122.7.3 All subpoenas issued under this rule are to be directed to the sheriff of the county where the person to be served resides or is found. The subpoena is to be served and returned in the same manner as a subpoena in a criminal case. Fees and mileage of the sheriff will be the same as that allowed in the court of common pleas in criminal cases. Fees and mileage of the witness are governed by section 119.094 of the Revised Code. The state fire marshal will pay allowable fees and mileage.

(d) 122.7.4 In case of disobedience or neglect of any subpoena served upon any person, or the refusal of any witness to testify to any matter in which there may be lawful interrogation, the state fire marshal will apply to the court of common pleas where such disobedience, neglect, or refusal occurs for an order to compel obedience by attachment proceedings for contempt, as in the case of disobedience of the requirements of a subpoena issued from such court, or a refusal to testify therein.
