Environmental Rule Adoption/Amendment Form

Pursuant to Am. Sub. H.B. 106 of the 121st General Assembly, prior to adopting a rule or an amendment to a rule dealing with environmental protection, or containing a component dealing with environmental protection, a state agency shall:

- (1) Consult with organizations that represent political subdivisions, environmental interests, business interests, and other persons affected by the proposed rule or amendment.
 - (2) Consider documentation relevant to the need for, the environmental benefits or consequences of, other benefits of, and the technological feasibility of the proposed rule or rule amendment.
 - (3) Specifically identify whether the proposed rule or rule amendment is being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal environmental law or to participate in a federal environmental program, whether the proposed rule or rule amendment is more stringent than its federal counterpart, and, if the proposed rule or rule amendment is more stringent, the rationale for not incorporating its federal counterpart.
 - (4) Include with the proposed rule or rule amendment and rule summary and fiscal analysis required to be filed with the Joint Committee on Agency Rule Review information relevant to the previously listed requirements.
-

(A) Were organizations that represent political subdivisions, environmental interests, business interests, and other persons affected by the proposed rule or amendment consulted ? **No**

Please list each contact.

When this rule was proposed as a new rule in 2011, it was reviewed by the Ohio Coal Association, the Ohio Environmental Council, and the United Mine Workers of America. The rule became effective November 3, 2011. These stakeholder organizations were not contacted regarding this current rule filing, however, because the changes that are proposed consist of a minor update and clarification that will have no impact upon any directly affected persons.

Since this rule is providing information on where the public can find a copy of the federal regulations referenced in Division 1501:10 of the Administrative Code, as well as the edition of the Code of Federal Regulations in which the rules are published, the Division anticipates that routine, non-controversial updates will need to be made at least once each year. There is no need for the above-mentioned organizations to review these minor annual updates prior to their being filed with JCARR.

- (B) Was documentation that is relevant to the need for, the environmental benefits or consequences of, other benefits of, and the technological feasibility of the proposed rule or amendment considered ? **Yes**

Please list the information provided and attach a copy of each piece of documentation to this form. (A SUMMARY OR INDEX MAY BE ATTACHED IN LIEU OF THE ACTUAL DOCUMENTATION.)

Ohio Revised Code Sections 121.71 to 121.76, and 1561.03 and 1561.05.

- (C) Is the proposed rule or rule amendment being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal environmental law or to participate in a federal environmental program ? **No**

Is the proposed rule or rule amendment more stringent than its federal counterpart ? **Not Applicable**

- (D) If this is a rule amendment that is being adopted under a state statute that establishes standards with which the amendment is to comply, is the proposed rule amendment more stringent than the rule that it is proposing to amend? **No**
