### III. Common Sense Initiative (CSI) Questions

17. Was this rule filed with the Common Sense Initiative Office? Yes

18. Does this rule have an adverse impact on business? Yes

A. Does this rule require a license, permit, or any other prior authorization to engage in or operate a line of business? Yes

ORC Chapter 1513. requires a coal mining permit to mine coal in Ohio. ORC section 1513.02(A)(8) requires the Chief of the Division of Mineral Resources Management to "Establish programs and adopt rules and procedures governing terms, limitations, and conditions for the use of diesel equipment in an underground coal mine." Appropriate use of diesel equipment would become one of the conditions placed on an underground coal mine permit. This rule requires that the Chief approve the results of procedures used to establish baseline exhaust emissions values prior to their being implemented for diesel engines or diesel equipment in an underground coal mine.

B. Does this rule impose a criminal penalty, a civil penalty, or another sanction, or create a cause of action, for failure to comply with its terms? No

This rule does not impose a penalty, but state law imposes penalties on persons who do not obey the State's coal mining laws. See Ohio Revised Code sections 1513.17 and 1513.99.

C. Does this rule require specific expenditures or the report of information as a condition of compliance? Yes

This rule requires a qualified diesel mechanic to establish baseline exhaust emissions values and to keep and submit records of the results to the Chief; this will require the mechanic to spend a significant amount of time and resources.

D. Is it likely that the rule will directly reduce the revenue or increase the expenses of the lines of business of which it will apply or applies? Yes

This rule requires a qualified diesel mechanic to establish baseline exhaust emissions values and keep records; this will require additional time and thus increasing expense.
