To comply with Ohio's five-year-review requirement pursuant to Ohio Revised Code section 106.03. And to comply with ORC 121.95 and 121.951.
8. **Summarize the rule's content, and if this is an amended rule, also summarize the rule's changes.**

This rule summarized the requirements and duties of the diesel technical advisory committee. At the time this chapter was promulgated in 2011, DMRM expected numerous underground coal companies to apply these rules to their operations. Instead, only one Ohio coal company has made some limited use of these rules. This company already had diesel equipment in its Pennsylvania underground coal mines and was therefore able to easily extend this equipment usage to Ohio, although it uses only a few pieces of diesel equipment here in this state. With little use of these rules, the diesel technical advisory committee was never established and no instances where the committee has been needed. Since the chief already has the ability to perform the duties identified in 1501:10-2-27, this rule is proposed to be rescinded to remove regulatory restrictions.
