Provider agencies certified to provide the services described in this rule will be reimbursed for their costs by the Ohio Department of Aging at a rate negotiated between the provider and the Department's designee. Participation by providers in the programs administered by the Department of Aging is voluntary and those providers for whom the cost of participation is too great are not required to participate. The Department of Aging does not anticipate that there will be any costs of compliance to directly affected persons in the event that this rule is adopted, aside from any possible start-up costs that a provider might incur prior to receiving certification.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **Yes**

You must complete Part B of the Rule Summary and Fiscal Analysis in order to comply with Am. Sub. S.B. 33 of the 120th General Assembly.

Rule Summary and Fiscal Analysis (Part B)

1. Does the Proposed rule have a fiscal effect on any of the following?

(a) School Districts	(b) Counties	(c) Townships	(d) Municipal Corporations
No	Yes	Yes	Yes

2. Please provide an estimate in dollars of the cost of compliance with the proposed rule for school districts, counties, townships, or municipal corporations. If you are unable to provide an estimate in dollars, please provide a written explanation of why it is not possible to provide such an estimate.

Aside from the initial start up costs that may be incurred by a county, township or municipality to become certified as a provider, a county, township or municipality's participation as a provider in programs administered by the Department of Aging should be cost neutral.

As required under section 173.39 of the Revised Code, the attached rule outlines service specifications for providers wishing to participate as service providers in, and receive reimbursement under, programs administered by the Department of Aging. Counties, townships and municipalities wishing to be certified to provide the services described in the attached rule will necessarily incur administrative costs to become certified and to provide the services for which reimbursement is being sought, but participation in the program is voluntary. In addition, the Department of Aging reimburses all certified providers for their costs at a rate negotiated between the provider and the Department's designee. Counties, townships and municipalities for whom the costs of participation are determined to be too great are not required to participate in the programs administered by the Department.

The Department of Aging is unable to estimate the costs that a county, township or municipality might incur to become certified to provide the services described in the attached rule. The costs would necessarily vary from one provider to the next depending upon any number of factors including, but not limited to: region of the state, availability of workforce, public contract requirements, etc.

3. If the proposed rule is the result of a federal requirement, does the proposed rule exceed the scope and intent of the federal requirement? **No**

4. If the proposed rule exceeds the minimum necessary federal requirement,

please provide an estimate of, and justification for, the excess costs that exceed the cost of the federal requirement. In particular, please provide an estimate of the excess costs that exceed the cost of the federal requirement for (a) school districts, (b) counties, (c) townships, and (d) municipal corporations.

Not Applicable.

5. Please provide a comprehensive cost estimate for the proposed rule that includes the procedure and method used for calculating the cost of compliance. This comprehensive cost estimate should identify all of the major cost categories including, but not limited to, (a) personnel costs, (b) new equipment or other capital costs, (c) operating costs, and (d) any indirect central service costs.

Please refer to the response provided above.

(d) Any Indirect Central Service Costs

6. Please provide a written explanation of the agency's and the local government's ability to pay for the new requirements imposed by the proposed rule.

The Department of Aging is unable to determine the ability of local governments to pay for the requirements imposed by this rule, but participation in programs administered by the Department of Aging is voluntary and counties, townships and municipalities providing the services described in this rule would be reimbursed by the Department of Aging at a rate negotiated between the provider and the Department's designee. Those local governments that cannot afford to participate as providers in programs administered by the Department are not required to do so.

7. Please provide a statement on the proposed rule's impact on economic development.

The availability of public benefits within a geographic area is one factor that attracts residents to a community. The community-based long-term care services funded by the Department not only provide those benefits, but they also enable older Ohioans to remain active and productive members of their communities. It is anticipated that the presence of active older Ohioans will have a positive impact upon the economic development of the communities in which they reside.
