

TO BE RESCINDED

173-45-05 Display of comparative information on facilities following the execution of a search query.

- (A) The response to a search query for facilities shall return a list of all facilities meeting the specified criteria of the search.
- (B) The first information to appear on the computer screen following a search shall be a list of all facilities identified by the search. For each of the facilities listed, the consumer guide shall present the user with all comparative measures, electronic links to definitions and descriptions of the measures, and to further detailed information about the measure to the extent it is available to the department of aging. For each facility, the department shall include the following information:
- (1) The aggregate responses made by a facility's residents or their family members to all measures of customer satisfaction;
 - (2) In the case of nursing facilities, the facility's scores on the quality measures described in rule 173-45-07 of the Administrative Code;
 - (3) The date of the facility's most recent department of health survey;
 - (4) The survey data provided pursuant to rule 173-45-08 of the Administrative Code;
 - (5) Whether the department of health determined that the nursing facility provided substandard quality of care to residents at any time during the previous eighteen months;
 - (6) Whether the department of health found that the care provided by the nursing facility placed residents in immediate jeopardy at any time during the previous eighteen months or care provided by the residential care facility created a real and present danger for residents during the previous eighteen months;
 - (7) An electronic link for each facility on the list allowing the user to gain access to information on the facility maintained in accordance with rule 173-45-06 of the Administrative Code; and,
 - (8) Other comparative measures derived from data specified in Chapter 173-45 of the Administrative Code may be included.
