6. State the reason(s) for proposing (i.e., why are you filing,) this rule:

This rule is proposed to establish a fee schedule for vocational rehabilitation services to be provided by community rehabilitation providers desiring to do business with Ohio Rehabilitation Services Commission (RSC). Currently, the rates are established by an open market setting. RSC is currently the only agency of its kind in the United States that does not have a standard fee schedule. The reasons for establishing a standard fee schedule are:

1.To establish consistency for the payment of services. Currently, providers

establish their own formula for fee and, in many cases, no two are alike. A wide discrepancy in fees charged for the same service by two different providers occurs sometimes in the same county.

2.To ensure a sound and acceptable business model for managing state and federal dollars.

3.Establish minimum standards for the experience and expertise of those individuals providing vocational rehabilitation services.

RSC recognizes that provider rates vary based on geographical location and the significance of the disability of the person being served. These factors are to be considered in establishing a fee schedule.

7. If the rule is an AMENDMENT, then summarize the changes and the content of the proposed rule; If the rule type is RESCISSION, NEW or NO CHANGE, then summarize the content of the rule:

The rule changes will establish a fee schedule designed to ensure a standardization and reasonable cost for each service.

8. If the rule incorporates a text or other material by reference and the agency claims the incorporation by reference is exempt from compliance with sections 121.71 to 121.74 of the Revised Code because the text or other material is **generally available** to persons who reasonably can be expected to be affected by the rule, provide an explanation of how the text or other material is generally available to those persons:

This response left blank because filer specified online that the rule does not incorporate a text or other material by reference.

9. If the rule incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material electronically, provide an explanation of why filing the text or other material electronically was infeasible:

This response left blank because filer specified online that the rule does not incorporate a text or other material by reference.

10. If the rule is being **rescinded** and incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material, provide an explanation of why filing the text or other material was infeasible:

Not Applicable.

12. 119.032 Rule Review Date: **7/1/2014**

(If the rule is not exempt and you answered NO to question No. 1, provide the scheduled review date. If you answered YES to No. 1, the review date for this rule is the filing date.)

NOTE: If the rule is not exempt at the time of final filing, two dates are required: the current review date plus a date not to exceed 5 years from the effective date for Amended rules or a date not to exceed 5 years from the review date for No Change rules.

FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase / decrease** either **revenues / expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will have no impact on revenues or expenditures.

\$ 0

The fee schedule is not expected to increase or decrease expenditures.

As stated above, the fee schedule is not expected to increase or decrease expenditures.

A Request for Proposal was released on September 19, 2011 to develop a statewide vocational rehabilitation fee schedule. The provider that is selected from based on the RFP will develop a fee schedule for services to Ohioans with disabilities. The exact impact on the RSC's budget will become known only after a standard fee schedule is developed. The RFP calls for completion no later than May 1, 2012.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

415506, Services for People with Disabilities;

- 415615, Federal-Supported Employment;
- 415616, Federal-Vocational Rehabilitation;
- 415618, Third Party Funding,
- 415619, Services for Rehabilitation

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

The proposed rule does not place any new certifications, license requirements, or accreditations on service providers that contract for vocational rehabilitation services with RSC than are currently required under the existing rule. The new rule does not call for any fines or penalties.

Currently, a number of services purchased by RSC are not standardized. Therefore, the cost for the same service from different providers from the same geographical location can vary widely. The fee schedule will standardize the costs for vocational rehabilitation service providers wishing to do business with RSC.

RSC recognizes that setting minimum standards for expertise and experience, which will improve the quality of services offered to RSC consumers, may increase business costs for some providers. These business costs will be considered in establishing the fee schedule.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
