Furthermore, the rule clarifies what activities are not considered reviewable, such as, but not limited to, acquisition of computer hardware, construction of parking facilities, or the removal of asbestos from a facility. The rule is being revised to remove all mentions of "non-reviewable activities" as the term is not defined or required by statute.

There are no new costs; the requirements of the rule remain the unchanged. The time necessary to prepare, submit, and provide any necessary follow-up information to the Certificate of Need Program to provide a reviewability ruling is dependent upon the size and complexity of the project.

The simplification and clarification of the application process that will result from the requested amendments to the entire Chapter are expected to result in a decrease in the request for additional information from CON applicants, thereby reducing the applicant's administrative burden.
