For example, the requirements include that applicants must: 1) own the operating rights of the facility being replaced or from which the beds are being relocated, and must be the licensed operator of the facility; 2) have entered into a contract to acquire the right to operate the facility that is being replaced, or to acquire the beds that are being relocated; and 3) in the case of an application to relocate approved beds, be the holder of the certificate of need for the beds. With the approval of the Public Health Council, ODH proposes to amend the rule to require facilities seeking to relocate beds or to replace the facility to: 1) submit an application indicating whether residents have been offered admission to the new beds; 2) to remove the relocation of beds as a component of the cost-effectiveness assessment for a facility replacement request; and 3) to add the requirement that a facility seeking replacement have been providing services in all or part of the long-term beds at that facility for at least three hundred sixty-five (365) consecutive days within the twenty-four (24) months preceding the date of the application.
