The rule establishes which activities are reviewable under the CON process. Reviewable activities include, but are not limited to, construction of a new long-term care facility, relocation of long-term care beds, and renovations. Revisions have been made increasing the capital expenditure on nursing home renovations or additions subject to Certificate of Need review from two million to four million dollars.

11. If revising or re-filing the rule, please indicate the changes made in the revised or re-filed version of the rule.

II. Fiscal Analysis

12. Please estimate the increase / decrease in the agency's revenues or expenditures in the current biennium due to this rule.

This will decrease revenues.

40,000.00

Based on the historical pattern of at least one Certificate of Need application each year over the last five years for costs exceeding 2 million dollars, it can be assumed that trend would continue, resulting in a loss of up to \$20,000 per year.

13. What are the estimated costs of compliance for all persons and/or organizations directly affected by the rule?

The industry will see a decrease in cost associated with these changes since the minimum threshold for a CON review for a project involving renovations or additions has been increased by two million dollars. This will result in fewer CON applications from the industry, however, the application fees charged remain unchanged as follows:

Application fee of \$5000 to \$20,000.

14. **Does the rule increase local government costs? (If yes, you must complete an RSFA Part B). No**
15. **Does the rule regulate environmental protection? (If yes, you must complete an RSFA Part C). No**
16. **If the rule imposes a regulation fee, explain how the fee directly relates to your agency's cost in regulating the individual or business.**

The fees collected directly support the CON program at the Ohio Department of Health. Fees collected support personnel and infrastructure necessary to support this statutorily required program.
