This rule establishes the long-term care facilities and beds review criteria and the state and county bed need calculation formula as authorized by ORC section 3702.593. Additionally, the rule sets forth the requirements for comparative review of certain applications and the requirements for CON applications involving movement of beds within contiguous counties. Revisions have been made to replace the term "nursing home" with the term "long-term care facility" throughout the rule and to remove the term "skilled nursing beds" from the rule. Additional revisions remove restriction on the Director from granting CON applications involving facilities with more than 150 beds, remove requirements related to community resources associated with inter county transfer of beds, and remove requirements previously associated with the second phase of a four-year comparative review process. Finally, the detailed listing of conditions for denial of a CON application has been replaced with a citation to division (B) of section 3702.59 ORC and the bed need formula has been moved to the end of the rule to improve continuity and flow of information.
