## DEFINITION

### **DEFINITIONS**

### **Classroom Instruction**

Means the training and information, excluding clinical experience, provided by a facility. Classroom instruction may include laboratory demonstration/return demonstration.

### **Clinical Experience**

Means a program through which the competency of a Dining Assistant provides feeding assistance to residents in an Ohio LTCF as part of the training process and under the supervision of the approved instructor.

### Instructor

Means an individual who is responsible for providing the instruction and performing the skills testing for the dining assistant as defined in Paragraph (F) of rule 3701-17-07.2 of the Administrative Code.

### **Laboratory Demonstration/Return Demonstration**

Means the use of individuals and equipment in a classroom setting for instructional purposes to approximate residents in a long-term care facility.

### **Minimum Hours**

Means the least amount of time required to cover each subject matter component contained in a topic area.

### **Dining Assistant (3701-17-07.2) (A) (2)**

"Dining Assistant" means an individual who meets the requirements specified in this rule and who is paid to feed residents by a long term care facility or who is used under an arrangement with another agency or organization.

### Nursing and Nursing-Related Services (Paragraph (4) of Rule 3701-17-07.1)

Means activities including attending to the personal care needs of residents, and providing personal care services and activities delegated by a nurse which may include implementation of portions of the nursing regimen, as defined in section 4723.01 of the Revised Code, for residents whose care does not require nursing assessment or the judgment of a nurse during the performance of the delegated activity. Nursing and nursing-related services does not include activities that are part of the nursing regimen which require the specialized knowledge, judgment, and skill of a registered nurse or the application of the basic knowledge and skill required of a licensed practical nurse licensed under Chapter 4723. of the Revised Code or any other activities that are required to be performed by a licensed nurse under Chapter 4723. of the Revised Code. Nursing and nursing-related services does not include assisting residents with feeding when performed by a Dining Assistant pursuant to rule 3701-17-07.2 of the Administrative Code.

### **Performance Objective**

Means a statement that is specified, in measurable terms, what the Dining Assistant trainees and participants are expected to know and execute as a result of successfully completing a training program.

### **Required Hours**

Means the total number of clock hours that are necessary to cover the content of a specific topic area.

### **Skills Testing**

Means the program coordinators or instructors observing the Dining Assistant's ability to perform a specified task by determining the presence or absence of those critical elements essential for its successful execution.

### Standard

Means a statement that specifies the subject matter that is required to be taught for each specific topic area in a training program.

### **Dining Assistant Training Course or Program**

Means a program of Dining Assistant training and evaluation of competency to provide feeding assistance.

### Trainee

Means an individual who is enrolled in a Dining Assistant training course approved by the Director pursuant to Chapter 3701-17-07.2 of the Administrative Code.

## INTRODUCTION

### **Application**

A long term care facility may use the services of Dining Assistants to feed certain residents. A long term care facility that uses Dining Assistants must meet the requirements of Rule 3701-17-07.2 of the Administrative Code. Dining Assistant Training Courses must be approved by the Director of Health pursuant to paragraph (H) the above rule. Such training courses may be based either in a long-term care facility or be non-long term care facility based. In the case where a Dining Assistant Training course is not based in a long-term care facility, the program may make arrangements with the long-term care facility for the provision of the clinical experience.

It is strongly suggested that persons who intend to provide a Dining Assistant Training Course approved by the Ohio Department of Health consider the trainee mix before they start the Dining Assistant Course. People who will attend the Dining Assistant training course come from a variety of educational backgrounds and levels of experience. Whenever possible, it is preferable to group the individuals who will be attending the program into groups of persons with similar backgrounds. This allows the person providing the program to better target subject matter to the group than if the group has a wide variation of educational levels and experience.

Questions concerning the Dining Assistant Training Courses or to obtain an application please contact: The Ohio Department of Health, ATTENTION: NATCEP Unit, 246 North High Street, 1<sup>st</sup> Floor, Columbus, Ohio 43216, or 614-752-8285; NATCEP@gw.odh.state.oh.us, FAX 614-995-5085.

### Introduction

Rule 3701-17-07.2 of the Ohio Administrative Code establishes the requirements for Dining Assistant Training. These requirements mandate that Dining Assistants complete a (10) hour training program. The objective of the Dining Assistant training requirement is to ensure the provision of quality assistance at meal times to certain residents in long-term care facilities by Dining Assistants who are able to:

- 1. Form a relationship, communicate and interact competently on a one-to-one basis with long-term care facility residents;
- 2. Demonstrate sensitivity to the residents' physical, emotional, social, and mental health needs through trained, directed interactions;
- 3. Assist residents in attaining and maintaining functional independence; and
- 4. Exhibit behavior in support and promotion of residents' rights.

The information that follows relates directly to the training of Dining Assistants in Ohio. Every effort has been made in constructing this information to follow the format for Dining Assistant training as found in rule 3701-17-07.2 of the Ohio Administrative Code. In addition, it is the intent of this document to serve as a:

- -guide for persons training Dining Assistant's to interpret Ohio's Standards for Dining Assistant training;
- -framework for the development and implementation of Dining Assistant training curriculum; and
- -basis for the development of the monitoring guidelines to be used by evaluators for on-going program review.

### TRAINING PROGRAM OF RULE 3701-17-07.2 OF THE OAC

The training course is designed to ensure that Dining Assistant's have a basic understanding of the nutritional needs of the residents, communication and interactions involving the residents and facility staff, behavior challenges and safety procedures of the long-term care facility in which they are employed.

The training course must include:

- (1) Feeding techniques;
- (2) Assistance with feeding and hydration, including the use of assistive devices;
- (3) Communication and interpersonal skills;
- (4) Appropriate responses to resident behavior;
- (5) Safety and emergency procedures, including the Heimlich maneuver;
- (6) Infection control;
- (7) Resident rights;
- (8) Recognizing changes in residents that are inconsistent with their normal behavior and the importance of reporting those changes to the supervisory nurse;
- (9) Special diets;
- (10) Documentation of type and amount of food intake; and
- (11) Meal observation and actual feeding assistance to a resident.

### CURRICULUM

The Dining Assistant Program is composed of a (10) hour curriculum. The curriculum is composed of the following topic areas.

### **Topic Areas**

Introduction to the Dining Assistant Program Communication and Interpersonal Skills Infection Control Safety and Emergency Procedures Respecting Residents' Rights Mealtime, Nutrition and Fluid Needs

### **Pre-Resident Contact**

9 total hours classroom (including lab simulation)

### **Resident Contact**

1 hour clinical experience

The following is a chart on the required hours for a Dining Assistant Program in Ohio. Please use this as a guide for your Dining Assistant program. You may have more than the required amount of hours, but you cannot have less.

Topic Area	Required Classroom Hours
I. Overview	0.5
II. Communication & Interpersonal Skills	2.0
III. Infection Control	1.5
IV. Safety and Emergency Procedures	1.5
V. Respecting Residents' Rights	1.0
VI. Nutrition and Fluid Needs	0.5
VII. Mealtime	2.0
Clinicals	1.0

### Organization of the Standards, Objectives and Content

The Topic Areas are broken up into Standards. Below is an outline of the Topic Areas with each Standard that is contained within. The language at the beginning of each Standard specifically outlines the State of Ohio's requirements which must be contained in or addressed through the Dining Assistant Training Course. The objectives specify in behavioral terms what the trainees in the Dining Assistant Training Course are expected to be able to do as a result of successfully completing the Dining Assistant Training course. Each Dining Assistant Training course may enhance the content by using textbooks, handouts, and audiovisual materials.

### Pre-Resident Contact (9 Hours) Topic Areas I-VII

### **Topic Area I Introduction to Dining Assistant Program**

Standard I.1 Program Overview

### **Topic Area II Communication and Interpersonal Skills**

Standard II.1 Communication and Interpersonal Skills

Standard II.2 Communicating and Interacting with Residents with Impairments

### **Topic Area III Infection Control**

Standard III.1 Infection Control

Standard III.2 Practices which Prevent the Growth and Spread of Pathogenic Micro-organisms

### **Topic Area IV Safety and Emergency Procedures**

Standard IV.1 General Safety Practices and Procedures

### Topic Area V Respecting Residents' Rights

Standard V.1 The Residents' Rights

**Topic Area VI Nutrition and Fluid Needs** 

Standard VI.1 Nutrition and Fluid Needs

**Topic Area VII Mealtime** 

Standard VII.1 Mealtime

### Topic Area I – Introduction to the Dining Assistant Program Standard I.1

Ohio's Dining Assistant Training Course has been designed to meet the requirements of Rule 3701-17-07.2 of the Administrative Code as well as provide a meaningful, practical skill development opportunity for persons wishing to be a Dining Assistant in Ohio's long-term care facilities.

The Dining Assistant Training Course is composed of (10) hours curriculum of instruction which is balanced between classroom and skills training. All hours of instruction must be completed before any clinical experience is undertaken. Additionally, no Dining Assistant will perform direct care on a resident. At the conclusion of a Dining Assistant program the Dining Assistant will be required to pass a test conducted by the instructor before being approved to work as a Dining Assistant in Ohio's long-term care facilities.

A Dining Assistant shall only be assigned to feed those residents who do not have complex feeding problems such as IV or parenteral feedings, swallowing problems, or recurrent aspiration problems.

After successful completion of the Dining Assistant Training Course conducted by the instructor the facility shall be responsible for maintaining all Dining Assistant training and employment records and make available for review to the surveyors during the survey process. This helps to ensure that employers can verify that a Dining Assistant is approved to work as a Dining Assistant in an Ohio long-term care facility.

Topic Area II – Communication and Interpersonal Skills Standards II.1 – II.2 Communication and interpersonal skills are critical to the well-being of residents, the people who care for, or about them, and to the flow of information within the long-term care facility. Because of their contact with the residents, Dining Assistants play an important role in the flow of information in the long-term care facility. The ability of the Dining Assistant to communicate changing conditions of the resident to proper staff may be critical to the resident's well-being. The Dining Assistant must also interact effectively with other members of the health care team including staff from other departments. Therefore, the Dining Assistant should receive training in basic verbal and nonverbal communication techniques, identification of factors which may impair communication, methods to enhance interpersonal skills and communication with appropriate staff regarding change in resident behavior.

### Topic Area III – Infection Control Standards III.1 – III.2

Residents, by the very nature of their living environment and physical/emotional status are prone to a variety of infections. The Dining Assistant is in a unique position to assist residents and to prevent infection. The Dining Assistant needs to recognize and report signs and symptoms of infection quickly should these symptoms appear. The Dining Assistant must also be able to identify behaviors which prevent the spread of infection.

### Topic Area IV – Safety and Emergency Procedures Standards IV.1

Knowledge and the ability to act properly regarding safety and emergency procedures are critical to the well-being of residents and care givers in the long-term care facility. Residents are largely dependent on the staff of the long-term care facility to provide a safe environment for them, and to see to their safety in the event of fire or natural disaster. Therefore, the Dining Assistant must not only be aware of proper safety and emergency techniques but must be able to perform the correct procedures when necessary.

### Topic Area V – Respecting Residents' Rights Standard V.1

Residents of long-term care facilities are protected by the same rights as any American citizen under the United States Constitution. However, residents of long-term care facilities by virtue of entrusting their lives to others have gained through federal statute and the State of Ohio's Resident Bill of Rights specific rights which are designed to afford them additional protection. The additional protection helps to ensure that their dignity, human rights and lives will be honored. Because of the relationships they build with residents and the amount of direct contact they have with the individual, Dining Assistants play a key role in implementation of the residents' rights.

### Topic Area VI – Nutrition and Fluid Needs Standard VI

The amount and quality of foods and fluids in the resident's diet affect physical and mental well-being. The Dining Assistant needs to be aware of the factors affecting the nutritional state of the resident. There are modified diets to meet the special nutritional needs of the resident. The Dining Assistant will be aware of the various therapeutic diets and will insure that the resident is fed according to the dietary plan.

### Topic Area VII – Mealtime Standard VII

The Dining Assistant interacts with the resident on a daily basis in the long-term care facility. Therefore, the Dining Assistant needs to be competent in the assistance with providing proper feeding and nutritional care. The resident depends on the Dining Assistant to perform these skills, to seek help for the resident when help is needed, and to accurately report a change in the resident's condition to the proper authority. The correct performance of basic feeding skills provides comfort to the resident and is a factor in the resident's need to live in a long term care facility. The instructor shall provide a curriculum which will result in the trainee obtaining the skills necessary to competently perform basic feeding procedures.

### **Standard I.1 Program Overview**

Section 3701-17-07.2 of the Administrative Code requires the training of Dining Assistants. This is done through a Dining Assistant Training Course (Dining Assistant program). The Dining Assistant Training Course shall contain subject matter designed to ensure that the Dining Assistant will be able to state the:

Purpose of the Dining Assistant program

Role and responsibilities of the trainer and Dining Assistant

Reporting and recording process in Ohio for abuse, mistreatment and neglect of a resident by a Dining Assistant.

	Content Curriculum	Hours	Title of	Method of Evaluation

	3) consequences		
	d. If a Dining Assistant observes abuse, neglect,		

or misappropriation of funds, it should be reported to the charge nurse		

### **Standard II.1 Communication and Interpersonal Skills**

Basic communication techniques and behaviors which can be effective for Dining Assistants when communicating with residents, family members and fellow employees in the long-term care facility shall be presented. Classroom demonstrations and exercises shall be used to ensure acquisition of communication skills by the trainees. Subject matter covered shall include:

- -Attitudes and behaviors which promote effective communication;
- -Factors which promote as well as block effective communication with residents, the resident's family, friends and nurse.

Objective	Content Curriculum	Hours Class	Title of Teacher	Method of Evaluation Teaching Method
The Dining Assistant trainee will be able to:  1. Define communication	<ol> <li>Communication         <ul> <li>Two-way process</li> <li>Sender, receiver and message are needed for communication</li> <li>Communication can be oral, written or by body language</li> <li>Dining Assistant's communicate with healthcare team, residents, families and visitors</li> <li>Verbal Communication</li></ul></li></ol>			Teaching Alert Use a current Dining Assistant text, workbook and/or audio-visual aid as a resource. ### **Standard II.2 Communicating and Interacting with Residents with Impairments**

Dining Assistants must be prepared to communicate and interact effectively with residents who have a variety of impairments. The Dining Assistant Training Course shall contain subject matter and classroom demonstration of techniques which are appropriate for communication and interaction with residents who are:

- -Vision, hearing, speech and/or physically impaired;
- -Confused, depressed, agitated or restless; and
- -Withdrawn or combative.

Objective	Current Curriculum	Hours	Title of	Medthod of Evaluation

	6. Always tell the resident what you are			
	doing while caring for him			
	7. Tell resident when you are going to			
	leave the room			

8. Talk directly to the resident and not to		
his companion		
9. Lighting of a room is important		
10. Position yourself directly in front of the		
person – face to face for conversation		
11. When serving the meal, arrange food		
and utensils on the tray. Try using the		
positions of the clock for arrangement		
and tell resident where food items are		
located		
12. Remember a guide dog is not a pet but		
rather a working dog, do not distract or play		
with the dog		
b. Hearing Impaired		
1. Face the resident who is hearing impaired		
and on the same level whenever possible		
2. The light should shine on the speaker's		
face rather than in the eyes of the hearing		
impaired		
3. Speak in a normal voice without shouting		
or elaborately mouthing words. Words		
spoken slowly are clearer than those		
shouted or exaggerated		
95		
4. Keep hands away from your face while talking		
5. Do not chew gum, smoke, or eat while		
speaking		
6. Remember that everyone, even the		
•		
hearing impaired, hear less when tired or ill		
7. Avoid lengthy sentences or sudden topic		
changes		
8. The hearing impaired may be very		
sensitive to loud sounds, even though		

the individual does not hear faint ones	
9. Turn the television, radio, or other	
sources of noise volume down if	
necessary to be heard	
10. If the resident wears hearing aids, check	
for placement of hearing aids.	
11. Stand or sit on the side of the better ear	
12. Say things in a different way if the	
resident does not appear to understand	
13. Provide aids such as picture cards, slates	
and notepad	
c. Speech-impaired	
1. Listen and give the resident your full	
attention	
2. Ask the resident questions to which you	
know the answer so you can become	
familiar with the sound of their speech	
3. Watch the resident's lip movement	
4. Watch the resident's facial expressions for	
clues to the meaning of their communication 5. Ask the resident to write down their	
messages if necessary	
6. Ask the resident to repeat as needed	
7. Repeat what you think the message is for	
clarification	
8. Provide aids to communication such as	
picture cards, slates, notepad	
9. Be patient; it is important to encourage	
resident to speak	
10. If resident wears dentures, check to see if the	ey
are in place	
d. Physically Impaired	
1. Verify the physical impairment with the	
nurse	
2. Listen carefully and patiently to resident	

	<ul> <li>3. Speak directly to the resident</li> <li>4. Be sensitive to non-verbal cues the resident may give</li> <li>5. Avoid giving own non-verbal cues of impatience, annoyance, or dislike</li> <li>6. Be patient, allow extra time</li> </ul>	
3. Identify techniques to communicate with the confused , withdrawn, depressed, restless, agitated or combative resident	3. a. Methods of communicating with the confused, withdrawn, depressed, restless, agitated or combative resident  1. Use simple sentences 2. Identify self and call resident by name 3. Communicate at eye level 4. Maintain a pleasant and calm facial expression 5. Place a hand on their arm if this does not cause agitation or anxiety 6. Make sure resident can hear you 7. Use a lower tone of voice 8. Give resident one question at a time and time to respond 9. Ask resident to do one thing at a time 10. May eventually need to use pictures; point, and touch, objects 11. Respect the residents' feelings 12. Do not over explain things b. Communicating with the withdrawn and depressed patient/resident 1. Spend (quality goal oriented) time with the resident 2. Be a good listener 3. Be patient, allow resident time to speak 4. Do not act in a pitying way 5. Report any complaint to nurse for evaluation	Teaching Alert Consult with nurse before approaching residents not known to Dining Assistant  Teaching Tip

3. Identify reasons why infection prevention and control are important	3. The importance of infection control and prevention a. Micro-organisms are always present in the environment. Some of these micro-organisms can cause disease (pathogens) 1. Names of possible pathogens include: bacteria, streptococcus, staphylococcus, and viruses.			Teaching Alert  You may wish to ask trainees to identify and name micro-organisms.  Teaching Alert

	<ul> <li>b. Elderly people and individuals with chronic diseases are often more susceptible to pathogens</li> <li>c. Reducing the number of micro-organisms and hindering their transfer increases the safety of the environment</li> </ul>	Refer to current pathogens (flu virus, etc)
4. Identify ways pathogenic	<ul> <li>d. The actions of the healthcare team are to protect residents, family and staff from infection</li> <li>4. Factors which promote the spread of pathogenic micro-organisms</li> </ul>	Teaching Alert  You may want to give examples of
microorganisms are spread	a. Lack of hand washing b. Use of artificial nails c. Direct contact with body secretions:	specific conditions to illustrate modes of transmission.
	1) Blood 2) Urine	Clinical Alert
	<ul> <li>3) Feces</li> <li>4) Semen</li> <li>5) Mucous</li> <li>6) Vaginal secretions/excretions</li> <li>7) Wound drainage</li> <li>8) Any other secretion/excretion of the human body except oral secretions and</li> </ul>	The Dining Assistant trainee should understand the micro-organisms are spread from resident to resident, staff to resident, staff to staff and resident to staff.
	sputum that do not contain blood d. Indirect contact: Touching objects, dishes, linens, instruments, equipment, tubing, etc.,	Integrate Into Future Clinical Experience
	which may contain body secretions e. Through the air by droplets spread from coughing or talking, or by dust particles in the air	Emphasize these practices throughout the course.
	f. Through a vehicle: Contaminated food, drugs, water, or blood g. Vector borne – Insect bites or stings	

5. Identify diseases which are transmissible through food	<ul> <li>a. Salmonella ssp.</li> <li>b. Shigella ssp.</li> <li>c. Escherichia coli 0157:H7</li> <li>d. Hepatitis A virus</li> <li>e. Entamoeba histolytica</li> <li>f. Campylobacter ssp.</li> <li>g. Vibrio cholerae</li> <li>h. Cryptosporidium</li> <li>i. Cyclospora</li> <li>j. Giardia</li> </ul>	Refer to OAC 3717-01-02.1 (A)(1) (2)
6. Identify symptoms caused by illness, infection or other source that can be related to food borne illnesses	<ul> <li>k. Versinia</li> <li>6. Symptoms of illness, infection or other source include: <ul> <li>a. Diarrhea</li> <li>b. Fever</li> <li>c. Vomiting</li> <li>d. Jaundice</li> <li>e. Sore throat</li> <li>f. Lesion containing pus or infected wound that is open or draining</li> </ul> </li> </ul>	

### Standard III.2 Practices Which Prevent the Growth and Spread of Pathogenic Micro-organisms

The key to preventing infection is to know and practice techniques which prevent pathogenic micro-organisms from growing and spreading. The Dining Assistant Training Course shall contain subject matter and demonstrations of practices which prevent the growth and spread of pathogenic micro-organisms including:

- -Proper hand washing technique;
- -Methods to control or eliminate pathogenic micro-organisms on supplies and equipment; and
- -The concepts of clean, and contaminated as applied to micro-organisms.

Objective	Content Curriculum	Hours	Title of	Method of Evaluation
		Class	Teacher	Teaching Model

	contaminated.	

### **Standard IV.1 General Safety Practices and Procedures**

The residents of the long-term care facility are largely dependent on the facility staff for the maintenance of a safe environment. Many residents are wheelchair bound, have vision or balance problems and may have problems with confusion. The Dining Assistant Training Course shall contain subject matter which:

- -Presents reasons why safety is important in the long-term care facility;
- -Demonstrates techniques and precautions Dining Assistants can take to prevent residents from falling;
- -Demonstrates techniques aimed at preventing residents from being burned by hot liquids etc.; and
- -Describes or demonstrates techniques to prevent residents from choking or ingesting harmful substances and the procedures to use should a resident choke or ingest a harmful substance.

### Standard V.1 The Residents' Rights

The Dining Assistant must be familiar with the specific rights enumerated by the Ohio Resident Bill of Rights for residents of long-term care facilities. The Dining Assistant Training Course shall contain a discussion of the resident's rights contained in the Ohio Resident Bill of Rights. A copy of those rights shall be available for the trainee's review.

Objective	Content Curriculum	Hours	Title of	Method of Evaluation
		Class	Teacher	Teaching Method
1. Identify legal rights	1. Resident's Rights			
of the resident	a. Residents of LTCFs have legal rights.			Teaching Alert

	representative and included in the chart			
	b. Types of rights which are found in the			Refer back to statement from page
	ORBR of which the Dining Assistant			17 – Topic V
	should be aware			
	c. Ways to respect residents' rights			There is an inherent tension
	1) Know the ORBR			between the need for protection
	2) Encourage residents to exercise			because of impaired function or
	their rights			status and the protection of the
	3) Report infractions to the nurse			resident's autonomy.

### **Standard VI.1 Nutrition and Fluid Needs**

Nutrition and fluid needs are essential to maintain and/or restore a resident's sense of well-being. The Dining Assistant program shall contain content which:

- -Discusses factors that affect the nutritional state of the resident;
- -Explains and provides examples of modified diets;

Objective	Content Curriculum	Hours	Hours	Title of	Method of Evaluation

fluids, one should offer small amounts frequently		Use current textbook, workbook and/or handouts as a reference.

### **Standard VII.1 Mealtime**

Many residents of long-term care facilities will need assistance at mealtime. The Dining Assistant Training Course shall discuss ways to promote a positive atmosphere at mealtime by:

- -Identifying devices and techniques to assist a resident to maintain independence while eating;
- -Identifying proper techniques for feeding residents;
- -Discussing ways to identify and demonstrate ways to intervene with a choking victim;
- -Discusses why a resident needs to receive a therapeutic diet;
- -Explains the role of the dietary department in providing nutrition for the resident; and
- -Discusses the importance of hydration and how to encourage fluid intake.

	c. The social aspect of mealtime should				

<ul> <li>2. Identify devices and techniques which may be used to help the resident maintain independence while eating</li> <li>3. Describe and demonstrate how to feed a resident</li> </ul>	d. Whenever possible, the Dining     Assistant should express positive     attitudes regarding the mealtime     experience e. Have conversation with resident     during feeding  2. Devices and techniques to help resident     with eating a. Provide food in a manageable     form (i.e., bread is buttered, meat cut      only when necessary) b. Visually impaired residents may     require assistance in locating food     and utensils. The numbers of a     clock are used to help visually     impaired residents c. Special eating devices, such as a     plate guard or adapted spoon to aid     handicapped resident in self-feeding     may be used  3. Feeding a resident a. Allow time for prayer if requested b. Sit facing the resident c. Check items on resident's tray with     the dietary card d. Help prevent choking by maintaining     proper body alignment e. May need to protect the resident's     clothing with napkin, clothing     protector or towel f. Tell the resident what food and fluids	Teaching Alert  Describe how to assist visually impaired residents.  An occupational therapist or dietitian may be able to provide examples of adaptive eating devices.  Provide adaptive devices.  Teaching Alert The students may role play this experience  Skills check list for feeding  Skill check list for passing trays  Student should adapt facing the resident based upon the resident's
	f. Tell the resident what food and fluids are on the tray g. Serve food & fluids in the order the	resident based upon the resident's physical needs

person prefers	
h. Offer fluids during the meal; fluids	
help resident chew and swallow	
i. Offer to wipe the resident's hands	
and face during the meal as needed	
j. Spoons should be used because they	
are less likely to cause injury and	
should be no more than 1/3 full	
k. Encourage the resident to help by	
having them hold finger foods	
l. Season foods according to the	
resident's preference but not in	
opposition to prescribed diets	
m. Maintain separate flavors of foods.	
Do not stir all foods together before feeding	
n. Identify the foods as you feed them	
to the resident: "This is mashed	
potatoes. Now, I'll give you some	
meatloaf."	
o. Feed hot foods and liquids cautious-	
ly to prevent injuring the resident	Discuss way to identify whether
p. Allow adequate time for the resident	food is too hot or has become too
to chew thoroughly	cool
q. Alternate liquids and solids as the	
resident prefers	Teaching Alert
r. Watch carefully to see that the	
resident swallows	Residents with dementia may be
s. Cut food into bite size pieces, per	distracted during meals, difficult
resident choice	to sit long enough to eat meal or
t. Open cartons/condiment packs for	may throw or spit food
the residents if they are unable to do	
SO	
u. Observe, report and record food and	
fluid intake as directed by nurse	

4. State how to identify a choking victim	v. Use a feeding cup to give liquids to a resident who cannot use a straw or cup effectively w. Notify nurse if resident refuses to eat 4. How to identify and intervene with a choking victim a. Cannot speak b. Cannot breathe, gasps for air c. Turns blue d. Collapses if obstruction is not removed e. Intervention: 1) Get help immediately – time is of the utmost importance 2) Perform the Heimlich Maneuver		Teaching Alert Follow facility guidelines for monitoring food and fluid intak  Teaching Alert Show picture of choking victi Review the Heimlich maneuver.
