2. Please provide an estimate in dollars of the cost of compliance with the proposed rule for school districts, counties, townships, or municipal corporations. If you are unable to provide an estimate in dollars, please provide a written explanation of why it is not possible to provide such an estimate.

The rule describes eligibility requirements for the Help Me Grow program and includes information on developmental screening, evaluation and consent required for services. Unable to estimate the cost of compliance, county family and children first councils are responsible for implementation and monitoring of the Help Me Grow (HMG) program locally. Funding for HMG is provided by the departments of health, job and family services and mental retardation and developmental disabilities. Due to the variety of services provided for program participants locally, it is not possible to determine the full cost of this program statewide. Base funding is provided to each county, but many counties also leverage local resources to expand services to families.

3. If the proposed rule is the result of a federal requirement, does the proposed rule exceed the scope and intent of the federal requirement? **Yes**

4. If the proposed rule exceeds the minimum necessary federal requirement, please provide an estimate of, and justification for, the excess costs that exceed the cost of the federal requirement. In particular, please provide an estimate of the excess costs that exceed the cost of the federal requirement for (a) school districts, (b) counties, (c) townships, and (d) municipal corporations.

Help Me Grow includes the federal Part C early intervention program of the Individuals with Disabilities Education Act (IDEA) for infants and toddlers with delays or disabilities. Additional state and federal funding is provided to counties for HMG services to newborns, infants and toddlers at risk for or with developmental delays or disabilities. Due to the variety of services provided for program participants locally, it is not possible to determine the full cost of this program statewide. Base funding is provided to each county, but many counties also leverage local resources to expand services to families.

5. Please provide a comprehensive cost estimate for the proposed rule that includes the procedure and method used for calculating the cost of compliance. This comprehensive cost estimate should identify all of the major cost categories including, but not limited to, (a) personnel costs, (b) new equipment or other capital costs, (c) operating costs, and (d) any indirect central service costs.

Each county family and children first council determines local providers, subcontractors and personnel to provide the services.

(a) Personnel Costs

Locally determined.

(b) New Equipment or Other Capital Costs

Locally determined.

(c) Operating Costs

Locally determined.

(d) Any Indirect Central Service Costs

Locally determined.

(e) Other Costs

Locally determined.

6. Please provide a written explanation of the agency's and the local government's ability to pay for the new requirements imposed by the proposed rule.

The Help Me Grow program was an integration of three (3) existing programs in 2001. Funding currently comes from federal Part C and TANF funding, GRF and local funding. There are no new program requirements imposed by the proposed rule.

7. Please provide a statement on the proposed rule's impact on economic development.

No impact.
