FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase/decrease** either **revenues /expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will increase expenditures.

\$21,900,334.

The net impact is an increase in expenditures, due to the technical assistance, training, and monitoring which will need to be provided to the 88 counties delivering the Early Intervention program. Agency impact calculated with salary and fringe costs for six EI program consultants at 50% of their time and one program manager at 70% of time for the remaining year in this biennium. Additionally, the staff to monitor the contractors is estimated at 50% of three monitoring staff and 50% of the monitoring manager; and 100% of the time of a researcher. The department staff resources total \$669,373 and will be supported with existing resources. The \$21,230,961 is allocated to the 88 county Family and Children First Councils in Ohio to provide services in Help Me Grow Early Intervention over the next state fiscal year.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

GRF DOH00A 440459

Federal Early Intervention funds DOH01W 440618

Medicaid Administrative Claiming funds DOH99E 440646

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

Applicants (e.g., The administrative agents of Family & Children First Councils in all 88 counties) who elect to apply for the available funds will be those affected. The cost of compliance is staff time for oversight and monitoring to meet the rule requirements in the Chapter of rules as they apply to these contractors. Estimated costs are unknown at this time, but they are expected to be almost exclusively personnel hours for an individual who will oversee meeting the agreement requirements. Other costs include the new requirement to re-determine children's eligibility annually, starting January 1, 2013 for a sub-set of children who have mild delays in one area of development. While this will increase costs for evaluation, it will reduce costs in serving children who no longer demonstrate a developmental delay.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **Yes**

Rule Summary and Fiscal Analysis (Part B)

1. Does the Proposed rule have a fiscal effect on any of the following?

(a) School Districts	(b) Counties	(c) Townships	(d) Municipal Corporations
No	Yes	No	No

2. Please provide an estimate in dollars of the cost of compliance with the proposed rule for school districts, counties, townships, or municipal corporations. If you are unable to provide an estimate in dollars, please provide a written explanation of why it is not possible to provide such an estimate.

The cost of compliance is unknown because the cost of compliance depends the number of children being served by the county; the number of licensed staff available to conduct evaluations and assessments; the extent to which memorandums of agreement are in place with county Boards of Developmental Disabilities; whether those services are provided in-kind or for payment; and if service coordinators employed by the county are credentialed and able to serve families.

3. If the proposed rule is the result of a federal requirement, does the proposed rule exceed the scope and intent of the federal requirement? **No**

4. If the proposed rule exceeds the minimum necessary federal requirement, please provide an estimate of, and justification for, the excess costs that exceed the cost of the federal requirement. In particular, please provide an estimate of the excess costs that exceed the cost of the federal requirement for (a) school districts, (b) counties, (c) townships, and (d) municipal corporations.

Not Applicable.

5. Please provide a comprehensive cost estimate for the proposed rule that includes the procedure and method used for calculating the cost of compliance. This comprehensive cost estimate should identify all of the major cost categories including, but not limited to, (a) personnel costs, (b) new equipment or other capital costs, (c) operating costs, and (d) any indirect central service costs.

The estimated cost will have to include personnel to conduct evaluations and assessments; tool scoring sheets as needed; and postage or email access costs to

send written notices.

(a) Personnel Costs

The estimated cost will have to include personnel to conduct evaluations and assessments.

(b) New Equipment or Other Capital Costs

Tool scoring sheets, as needed.

(c) Operating Costs

Postage or e-mail access costs to send written notices.

(d) Any Indirect Central Service Costs

Not applicable.

(e) Other Costs

Copying costs, when needed are impossible to quantify because they are upon request. Electronic scanning of the written notices of meetings and the prior written notices is an option, which requires the one-time cost of a scanner, but then eliminates copying and mailing costs.

6. Please provide a written explanation of the agency's and the local government's ability to pay for the new requirements imposed by the proposed rule.

The requirements provided here are required by the federal Early Intervention regulations. The increase from one person to two to do assessments is new. The ODH has aligned the rule with federal regulations and eliminated using a tool every six months to try and off-set costs. The grantees enter into the contract voluntarily and are compensated for the grant deliverables; but federal and state dollars are not meant to fund the entire program (as evidenced by the 34 C.F.R. language 303.120) and local dollars have become scarce. This new requirement will impact counties who have not established MOUs, agreements, or other mechanisms in place to serve infants and toddlers beyond the source of funds provided by ODH.

7. Please provide a statement on the proposed rule's impact on economic

development.

This proposed rule is not expected to have an impact on economic development.
