7. If the rule is an AMENDMENT, then summarize the changes and the content of the proposed rule; If the rule type is RESCISSION, NEW or NO CHANGE, then summarize the content of the rule:

The rule outlines the requirements for obtaining certification by the Department of Insurance as a "partnership qualified" long term care insurance policy and how to go about offering an exchange of such a partnership qualified policy for an existing long term care policy once the insurer starts to offer partnership qualified policies generally. This includes filing certification forms, disclosure forms at initial offer of exchange and at time of solicitation and at policy delivery, as well as reporting requirements to the federal Department of Health and Human Services that administers the Medicaid program. Partnership qualified long term care policies are federally tax qualified policies that have tax benefits deriving from their use, and that also allow for avoidance of the same amount of spend-down if the person needs to apply for Medicaid at some point, as was used for qualified long term care services under the "PQ" policy. This same amount is also protected from Medicaid's estate recovery program after the person has died.
