I. Rule Summary

- 1. Is this a five year rule review? No
 - A. What is the rule's five year review date?
- 2. Is this rule the result of recent legislation? No
- 3. What statute is this rule being promulgated under? 119.03
- 4. What statute(s) grant rule writing authority? 3781.10(A)(1)
- 5. What statute(s) does the rule implement or amplify? 3737.87, 3737.88, 3737.89, 3781.10, 3781.11, 3791.04, 4104.42(C)
- 6. Does the rule implement a federal law or rule in a manner that is more stringent or burdensome than the federal law or regulation requires? No
 - A. If so, what is the citation to the federal law or rule? Not Applicable
- 7. What are the reasons for proposing the rule?

This rule is proposed to comply with the five-year rule review requirement and to update the Ohio Building Code (OBC) to the 2021 International Building Code (IBC) model code published by ICC. This new rule is being filed to replace a rescinded rule of the same rule number.

Page 2 Rule Number: **4101:1-4-01**

8. Summarize the rule's content, and if this is an amended rule, also summarize the rule's changes.

This rule outlines specific requirements for many different occupancy groups such as mall buildings, high-rise buildings, atriums, motor vehicle related buildings, Group I-2, Group I-3, etc.

- 9. Does the rule incorporate material by reference? Yes
- 10. If the rule incorporates material by reference and the agency claims the material is exempt pursuant to R.C. 121.75, please explain the basis for the exemption and how an individual can find the referenced material.

The referenced standards are generally available to the affected parties. The referenced standards can easily be purchased from or may be viewed on websites of the standards making organizations. The affected parties typically would be product manufacturers, design professionals, builders, and contractors. These parties would be expected to already own or have access to the standards in order to conduct their business of manufacturing, testing, designing, and installing the building systems and products.

It was infeasible for the agency to file the text electronically due to copyright issues with the standards making organizations. The standards are generally available.

11. If revising or re-filing the rule, please indicate the changes made in the revised or re-filed version of the rule.

Not Applicable

II. Fiscal Analysis

12. Please estimate the increase / decrease in the agency's revenues or expenditures in the current biennium due to this rule.

This will have no impact on revenues or expenditures.

\$0.00

This rule addresses building design issues. The requirements of the rule do not fiscally affect the Board of Building Standards, the Department of Commerce, or the state.

13. What are the estimated costs of compliance for all persons and/or organizations directly affected by the rule?

Page 3 Rule Number: **4101:1-4-01**

Due to the variance in allowed building designs, it is very difficult to ascertain, in dollars, a cost increase or decrease in the design cost of a building as a result of this proposed code update. When a code change proponent submits a petition to the ICC to amend the model code an estimated cost impact of the proposal is included with the proposed change. Some changes result in a cost increase while others actually reduce the cost of construction. The board has carefully evaluated all of these changes and balanced any increases in cost with an added benefit of enhanced life safety to the building occupants or ease of maintenance of required systems. Additional information regarding the cost impact of the entire Building Code can be found in the attached BIA document.

- 14. Does the rule increase local government costs? (If yes, you must complete an RSFA Part B). No
- 15. Does the rule regulate environmental protection? (If yes, you must complete an RSFA Part C). No
- 16. If the rule imposes a regulation fee, explain how the fee directly relates to your agency's cost in regulating the individual or business.

Not applicable.

III. Common Sense Initiative (CSI) Questions

- 17. Was this rule filed with the Common Sense Initiative Office? Yes
- 18. Does this rule have an adverse impact on business? No
 - A. Does this rule require a license, permit, or any other prior authorization to engage in or operate a line of business? No
 - B. Does this rule impose a criminal penalty, a civil penalty, or another sanction, or create a cause of action, for failure to comply with its terms? No
 - C. Does this rule require specific expenditures or the report of information as a condition of compliance? No
 - D. Is it likely that the rule will directly reduce the revenue or increase the expenses of the lines of business of which it will apply or applies? No

IV. Regulatory Restriction Requirements under S.B. 9. Note: This section only applies to agencies described in R.C. 121.95(A).

- 19. Are you adding a new or removing an existing regulatory restriction as defined in R.C. 121.95? Yes
 - A. How many new regulatory restrictions do you propose adding to this rule? 0
 - B. How many existing regulatory restrictions do you propose removing from this rule? 1

See attached inventory list for rules 4101:1-1 to 4101:1-35. Compared to the rescinded rule, of the original 1017 inventoried regulatory restrictions, we are eliminating 1017 in this rule by incorporating the generally accepted commercial building, fire, plumbing, mechanical, electrical, safety or other codes and standards by reference pursuant to 121.71 to 121.74 of the Revised Code and simplifying the Ohio modification rule language.

- C. If you are not removing existing regulatory restrictions from this rule, please list the rule number(s) from which you are removing restrictions.
- D. Please justify the adoption of the new regulatory restriction(s).
