(C) Conduct of inspections.

(1) The superintendent shall inspect and investigate any plant, facility, establishment, construction site, area, workplace, or environment where work is being performed by a public employee of a public employer, and all pertinent conditions, structures, machines, apparatus, devices, equipment, and materials therein.

(2) Inspections shall take place at such times and in such places as the superintendent may direct.

(a) The conduct of inspections shall be such as to preclude unreasonable disruption of the operations of the employer's establishment.

(b) At the beginning of an inspection, compliance officers shall present their credentials to the employer or the employer's agent in charge at the establishment; explain the nature and purpose of the inspection; and indicate the scope of the inspection and the records they wish to review as required under rule 4167-6-08 of the Administrative Code and other documents and records relevant to the inspection or investigation.

(c) Compliance officers designated by the superintendent shall have the authority to:

(a) As used in this rule, "take environmental samples" includes, but is not limited to, the use of devices to measure employee exposures and the attachment of personal sampling equipment such as dosimeters, pumps, badges and other similar devices to employees in order to measure their exposures.

The court may punish any failure to obey the order of the court as a contempt thereof.

(d) At the conclusion of an inspection, the compliance officer shall confer

with the employer or the employer's representative, informally advising of any apparent safety or health violations disclosed by the inspection. During such conference, the employer shall be afforded an opportunity to bring to the attention of the compliance officer any pertinent information regarding conditions in the workplace.
