0

We do not anticipate that this rule will affect the agency budget.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Not applicable

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

Generally this rule is not expected to create additional costs. However, the remedial driving courses are required to meet the department criteria and in the case of a proposal submitted for approval of an adult remedial driving course that includes a portion of technology-based methods training for students, there will be additional costs presented by this rule because it newly requires the enterprise to develop and implement written policies and procedures for obtaining and verifying successful

student completion of the portion of the course completed by the student through the technology-based method(s). It also requires that the proposal include a plan for the technology-based methods provider to transfer the student completion data directly to the classroom course provider.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
