FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase/decrease** either **revenues /expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will increase expenditures.

39.68

It is estimated that the net impact will increase expenditures by \$39.68 per hour to review records and complete investigations. The department requires an information technology security consultant to review the reports generated by the online provider during an inspection or investigation. The fiscal year net impact of the department is difficult to determine. The inspection/investigation will be based on the amount of time field staff and /or security personnel will need to review specific information. Each inspection and investigation will vary depending on the specifics of the complaint and/or volume of records obtained and reviewed.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

The expenditures are appropriated through the 7036 fund (Highway Transportation Fund), ALI 761321 under Information and Education Operating.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

This rule requires the schools to provide specific documentation and/or items related to the training for the purpose of an inspection and/or investigation. The specific documentation may include student records, instructor records, and other items such as vehicles, and facilities used for training. The time it takes a school to prepare for an inspection is between four and eight hours. This includes the time it requires to pull records from other sites, if they have more than one site, and to present all vehicles. The school would then be responsible for ensuring that all items requested are available for inspection at the main enterprise office. For an online driver education program, it may take between one and two hours to pull the

information together since it is available in electronic format. The online school would then be required to provide the department access to the data.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**

S.B. 2 (129th General Assembly) Questions

18. Has this rule been filed with the Common Sense Initiative Office pursuant to R.C. 121.82? **Yes**

19. Specific to this rule, answer the following:

A.) Does this rule require a license, permit, or any other prior authorization to engage in or operate a line of business? **No**

This rule, in and of itself, does not require prior authorization to engage in or operate a line of business; however, it is part of a filing package that does, as some provisions in Chapter 4501-8 require abbreviated adult driver training schools and online driver education programs to obtain and maintain the appropriate license or certificate prior to engaging in driver education and training, pursuant to sections 4508.03 and 4508.04 of the Revised Code.

B.) Does this rule impose a criminal penalty, a civil penalty, or another sanction, or create a cause of action, for failure to comply with its terms? **No**

However, an administrative action including a fine up to revocation or denial of application may occur should the enterprise fail to comply with the requirements set forth in this rule.

C.) Does this rule require specific expenditures or the report of information as a condition of compliance? **Yes**

This rule requires the schools to provide specific documentation and/or items related to the training for the purpose of an inspection and/or investigation. The specific documentation may include student records, instructor records, and other items such as vehicles, and facilities used for training. The time it takes a school to prepare for an inspection is between four and eight hours. This includes the time it requires to pull records from other sites, if they have more than one site, and to

present all vehicles. The school would then be responsible for ensuring that all items requested are available for inspection at the main enterprise office. For an online driver education program, it may take between one and two hours to pull the information together since it is available in electronic format. The online school would then be required to provide the department access to the data.
