The rule establishes the requirements and process for dialysis technician certification. The rule amendment is to reduce the training time for dialysis technician certification from 12 months to 6 months and to update an application/form reference.

8. **Does the rule incorporate material by reference? Yes**
9. **If the rule incorporates material by reference and the agency claims the material is exempt pursuant to R.C. 121.71 to 121.76, please explain the basis for the exemption and how an individual can find the referenced material.**
The rule states that the materials are available to the public at <http://www.nursing.ohio.gov/forms.htm>.
The material referenced is a form that is readily available on a public website. Forms contain data (e.g., calendar dates, references to statutes) that are updated from time to time, and it is infeasible, and not a good use of state resources, to file new rules and hold public rule hearings, each time changes are made to forms. In addition, some forms referenced are representative samples, as the forms used by individuals are mailed to them directly and contain secure passwords to access and file the form on the Ohio eLicense Center electronic database, and it is infeasible to attach forms containing personal identifiers to public rule filings.
10. **If revising or re-filing the rule, please indicate the changes made in the revised or re-filed version of the rule.**
