6. **What are the reasons for proposing the rule?**

The Rule establishes the process for renewal of a medication aide certificate.

7. **Summarize the rule's content, and if this is an amended rule, also summarize the rule's changes.**

The rule establishes the process for renewal of a medication aide certificate. The rationale for the Rule is to provide clarity to the medicate aides as to how to renew, reinstate or reactivate their certificate, or place a certificate on inactive status. The revision to the Rule is to remove the requirement in paragraph (D)

that medication aides upload documentation of continuing education to their online renewal application.

- 8. Does the rule incorporate material by reference? Yes**
- 9. If the rule incorporates material by reference and the agency claims the material is exempt pursuant to R.C. 121.75, please explain the basis for the exemption and how an individual can find the referenced material.**

The rule states that information regarding the availability and effective date of the materials incorporated by reference in the rule can be found in paragraph (G) of Rule 4723-1-03. Rule 4723-1-03 states that the materials are available to the public at <http://www.nursing.ohio.gov/forms.htm>. The material is a digital application into which data is entered to fill out a form or its equivalent, and the form or application merely collects information and does not establish principles of law or policy. Additionally, forms contain data (e.g., calendar dates, references to statutes) that are updated from time to time, and it is infeasible, and not a good use of state resources, to file new rules and hold public rule hearings, each time changes are made to forms. The forms referenced are representative samples, as the forms used by individuals are accessed using secure passwords necessary to file the form on the Ohio eLicense Center electronic database, and it is infeasible to attach forms containing security passwords and personal identifiers to public rule filings.
