Huffman**3. Statute prescribing the procedure in accordance with the agency is required to adopt the rule: **119.03**4. Statute(s) authorizing agency to adopt the rule: **4731.05; 4731.74**5. Statute(s) the rule, as filed, amplifies or implements: **4731.22; 4731.74**

6. State the reason(s) for proposing (i.e., why are you filing,) this rule:

Section 4731.74 of the Revised Code, effective March 23, 2016, requires the Medical Board to promulgate rules setting the requirements for physicians to prescribe prescription drugs to persons the physician has not personally examined and who is at a location remote from the physician. The current rule is inconsistent with the specifications of Section 4731.74.

7. If the rule is an AMENDMENT, then summarize the changes and the content of the proposed rule; if the rule type is RESCISSION, NEW or NO CHANGE, then summarize the content of the rule:

The rule reflects the requirements of Section 4731.74 of the Revised Code. For providing drugs that are not denoted as controlled substances by the U.S. Drug Enforcement Administration, the rule allow for the establishment of a physician-patient relationship by the use of appropriate technology. For providing drugs that are controlled substances, the rules are consistent with federal law.

8. If the rule incorporates a text or other material by reference and the agency claims the incorporation by reference is exempt from compliance with sections 121.71 to 121.74 of the Revised Code because the text or other material is **generally available** to persons who reasonably can be expected to be affected by the rule, provide an explanation of how the text or other material is generally available to those persons:

The rule references provisions of the Ohio Revised Code and Ohio Administrative Code that are readily available via an internet search, the Medical Board's website, and the public library.

9. If the rule incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material electronically, provide an explanation of why filing the text or other material electronically was infeasible:

Not applicable

10. If the rule is being **rescinded** and incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material, provide an explanation of why filing the text or other material was infeasible:

*Not Applicable.*

11. If **revising** or **refiling** this rule, identify changes made from the previously filed version of this rule; if none, please state so. If applicable, indicate each specific paragraph of the rule that has been modified:

The proposed rule was originally filed in a PDF version. The first revision to file the .xml version of the document, actually filed a version that was not the final language approved by the Medical Board. By this second revision, the correct version of the rule is being filed in .xml. The difference is that the phrase "drug enforcement agency" is changed to the correct wording of "drug enforcement

administration" in paragraph (D)(2), (3), and (4).

12. Five Year Review (FYR) Date:

(If the rule is not exempt and you answered NO to question No. 1, provide the scheduled review date. If you answered YES to No. 1, the review date for this rule is the filing date.)

NOTE: If the rule is not exempt at the time of final filing, two dates are required: the current review date plus a date not to exceed 5 years from the effective date for Amended rules or a date not to exceed 5 years from the review date for No Change rules.
