

4765-14-04

Education of state and regional trauma triage protocols.

The board shall consult with the state trauma committee, emergency medical service organizations and personnel, regional directors and regional physician advisory boards, emergency medical service instructors, and persons who regularly provide medical direction to emergency medical service personnel in this state for assistance in developing and implementing educational opportunities regarding state and regional trauma triage protocols. The board may also enlist the assistance of the division of EMS or direct the division of EMS to participate in developing and implementing educational opportunities regarding state and regional trauma triage protocols in a manner to be determined by the board.
