Such training, set forth in amended rule 4765-8-04, is a one-time requirement and may be counted toward the EMT-I's continuing education requirements.

Such training is a one-time requirement and may be counted toward the EMT-I's continuing education requirements. Additional wording changes are for clarification purposes.

8. If the rule incorporates a text or other material by reference and the agency claims the incorporation by reference is exempt from compliance with sections 121.71 to 121.74 of the Revised Code because the text or other material is **generally available** to persons who reasonably can be expected to be affected by the rule, provide an explanation of how the text or other material is generally available to those persons:

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

This rule refers to a one-time renewal requirement for First Responders and EMTs, listed in 4765-8-04, to complete the Hazmat and WMD course and the Health Crisis Planning course. Currently, the Hazmat and WMD course is being offered through the Ohio Fire Academy at no cost. The Health Crisis course is not currently being offered at an accredited or approved site. As such, it is difficult to determine with certainty how much the course will cost. The course is approximately 1.5 hours. Most schools charge an average of \$10.00 per hour for a course. Therefore, it is not anticipated that applicants will incur more than \$20.00 for this course. Any potential costs may be offset if the EMS organization with which the EMT is affiliated applies for grant funding to cover training costs.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
