OAC Rule 4765-20-10 sets forth the requirements for applying for firefighter certification by reciprocity for those individuals who were trained in another state, the District of Columbia, the United States territories, or a branch of the United States military. Requirements include an emergency vehicle operations course, incident management courses, and training that meets the mission-specific competencies for several NFPA standards. The rule permits the EMS executive director to review training received in other states, United States territories, the District of Columbia, and any branch of the United States military in order to grant credit for that training for a firefighter certification in Ohio. The rule refers readers to rule OAC 4765-25-02, Incorporated by reference.
