This rule provides eleven definitions associated with OAC Chapter 4766-3, entitled

Ambulettes, which sets forth the conditions under which the State Board of Emergency Medical, Fire, and Transportation Services (EMFTS) may approve, renew, or deny an application to operate an ambulette service and sets license and permit fees. The definitions for this chapter relate to standards for ambulette services, including record-keeping, safety requirements, communications, vehicle maintenance, inspections, driver training and qualifications, investigations, and disciplinary grounds. OAC rule 4766-3-01 has been revised to replace "Ohio medical transportation board" with "state board" or "emergency medical, fire, and transportation services" (EMFTS) due to the merger of the two organizations into the State Board of EMFTS in 2013. The definitions were revised for consistency with other recently revised chapters of the medical transportation rules, and as revised include nineteen definitions. Four EMS provider titles were added, using the national EMS provider titles. A total of nine definitions were added; nine definitions were revised, including merging two definitions; and one definition was not changed.

8. If the rule incorporates a text or other material by reference and the agency claims the incorporation by reference is exempt from compliance with sections 121.71 to 121.74 of the Revised Code because the text or other material is **generally available** to persons who reasonably can be expected to be affected by the rule, provide an explanation of how the text or other material is generally available to those persons:

This response left blank because filer specified online that the rule does not incorporate a text or other material by reference.

10. If the rule is being **rescinded** and incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material, provide an explanation of why filing the text or other material was infeasible:
