FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase /decrease** either **revenues /expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will decrease expenditures.

\$1,335,993.86

This rule in conjunction with rule 5101:1-39-05 (included in this filing) has an estimated cost based on projections provided by the National Conference of State Legislatures (NCSL): Deficit Reduction Act of 2005 Summary of Medicaid, Medicare, Health Provisions (updated February 3, 2006), and information obtained from the Decision Support System (July 1, 2004 through June 30, 2006). Ohio's long-term care population (111,808) is the number of consumers receiving long-term care services from nursing facilities, a Home and Community Based Services (HCBS) waiver, or the Program for All-Inclusive Care for the Elderly (PACE). The federal long-term care Medicaid population (2,712,591) was divided by Ohio's long-term care Medicaid population in order to determine the portion of the estimated federal fiscal impact that is specific to Ohio. This portion of federal dollars was then reduced to reflect Ohio's share of Medicaid long-term care costs (40.12 %).

The estimated cost also includes an estimated biennium savings of \$1,076,400. This additional savings is a result of a correction in the patient liability budget. The current rule, 5101:1-39-24 Medicaid: patient liability, effective July 1, 2005, instructs the administrative agency to exclude \$90.00 from the individuals income if the individual is a veteran as described in this rule. Additionally, the rule instructs the administrative agency to allow a personal needs allowance of \$90.00. The result is \$180.00 not used in the patient liability budget. The new rule will limit the personal needs allowance to \$40.00 (except for individuals with earned income). This is a savings of \$50.00 per veteran. The \$50.00 was then multiplied by the estimated number of veterans effected by this rule (data obtained from the Decision Support System, February 2006). The dollar amount of \$1,435,200 was then multiplied by .75 (remaining time in biennium).

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Not applicable.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

This new rule will require institutionalized individuals to transfer all available income to the community spouse before a new community spouse resource allowance can be computed. This may cause the institutionalized spouse to remain over the Medicaid resource limit of fifteen thousand dollars.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
