Other changes include revisions to prior authorization requirements for other hearing aids, a listing of several hearing aid types which are not covered, warranty requirements, and policy on the replacement of a hearing aid for non-medical reasons. Also addressed is Medicaid's reimbursement for a digital or programmable aid.

8. If the rule incorporates a text or other material by reference and the agency claims the incorporation by reference is exempt from compliance with sections 121.71 to 121.74 of the Revised Code because the text or other material is **generally available** to persons who reasonably can be expected to be affected by the rule, provide an explanation of how the text or other material is generally available to those persons:

11. If **revising** or **refiling** this rule, identify changes made from the previously filed version of this rule; if none, please state so:

To revise language in the following paragraphs:

1)(B)(2) is revised to state that a medical examination must be performed by a physician. The previously filed version had the option of an "audiological evaluation". However the originally filed version of this rule did not incorporate this option. The removal of this option may impact audiologists but the Department believes that a medical examination is critical before a hearing aid is provided;

2) (B)(3) is revised to state that test results and written recommendations may be performed and by a physician (regardless of specialty);

3) (B)(3)(c) is revised to clarify references to Ohio Revised Code describing tests performed by hearing aid fitters or by audiologists;

4) (B)(5) is revised to clarify that a physician regardless of specialty may provide the medical examination/evaluation. The reference to an audiological evaluation has been removed. Also in the second paragraph of (B)(5) a reference to both the Administrative Code for hearing aid fitters and a reference to Administrative Code for audiologists has been added. (B) (5) was also corrected to correct a reference to Ohio Administrative Code which was a typographical error;

5) (D)(2) is revised to remove the term "medical necessity" and replace it with "criteria for coverage";

6) (D)(4)(c) is revised to clarify who can perform a medical examination/evaluation;and

7) (D)(4)(d) is revised to remove the following wording "from an examination" and add hearing aid fitters to provider who may result audiogram results.
