6. State the reason(s) for proposing (i.e., why are you filing,) this rule:

This rule is being proposed for adoption to address updated coverage criteria for oxygen services. It replaces part of former rule 5101:3-10-13.

7. If the rule is an AMENDMENT, then summarize the changes and the content of the proposed rule; if the rule type is RESCISSION, NEW or NO CHANGE, then summarize the content of the rule:

This rule sets forth the coverage criteria and requirements, the process for prior authorization and the payment process for oxygen services to Ohio Medicaid consumers in the private residence setting.

Changes from the rescinded rule include reformatting in order to account for a change in the technology for home oxygen delivery and to clarify the departments requirements for the authorization of oxygen services in a private residence. The underlying payment method for oxygen concentrators is changing from a payment method based on the monthly utilization by consumed volume of this equipment to a reimbursement system based on the monthly possession of an oxygen concentrator. The maximum payment amounts set forth in Appendix DD of rule 5101:3-1-60 is not changing. The introduction of codes pertaining to "Trans-fill" and portable concentrator technology is also being implemented. This rule also introduces a new certificate of medical necessity (JFS 01909, rev. 6/2005) to be utilized in conjunction with the prior authorization request for oxygen services.

8. If the rule incorporates a text or other material by reference and the agency claims the incorporation by reference is exempt from compliance with sections 121.71 to 121.74 of the Revised Code because the text or other material is **generally available** to persons who reasonably can be expected to be affected by the rule, provide an explanation of how the text or other material is generally available to those persons:

This rule incorporates one or more references to another rule or rules of the Ohio Administrative Code. This question is not applicable to any incorporation by reference to another OAC rule because such reference is exempt from compliance with ORC 121.71 to 121.74 pursuant to ORC 121.76(A)(3).

9. If the rule incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material electronically, provide an explanation of why filing the text or other material electronically was infeasible:

Not Applicable

10. If the rule is being **rescinded** and incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material, provide an explanation of why filing the text or other material was infeasible:

Not Applicable.

11. If **revising** or **refiling** this rule, identify changes made from the previously filed version of this rule; if none, please state so:

This rule is being revised to add paragraph (E)(1)(b), which says: "No modifier is used when supplying portable oxygen contents or a portable system rental." This paragraph is currently codified in the existing oxygen rule 5101:3-10-13 and is being added to this new rule for the sake of program consistency.
