OAC Rule #5101:3-10-30
Value Purchasing: Ohio preferred durable medical equipment (DME) Program.

RSFA Clarification Statement, Question #16.

This rule is being filed in response to the recommendation made by the Ohio Commission to Reform Medicaid that the Ohio Department of Job and Family Services (ODJFS) Durable Medical equipment (DME) program should utilize its inherent purchasing power to negotiate distinct provider contracts to provide medical equipment and supplies to Medicaid consumers.

This rule provides elaboration to providers of medical equipment and supplies regarding the Department's intention to establish a value purchasing system utilizing a competitive bid process or otherwise for items or services currently listed on the department's medical supply lists. Any item or service designated on the supply lists as being supplied to a Medicaid consumer as a result of a value purchasing agreement between the department and a selected provider will not be directly reimbursable to any provider not selected by the department through the competitive bid process or otherwise to supply the equipment, supplies or services in question.

This rule is proposed as an enabling rule in order to codify the value purchasing process in the Ohio Medicaid DME chapter OAC 5101:3-10.

When the department has determined that a specific item or service listed on the Medicaid supply lists are to be subject to the value purchasing concept that is contained in this rule there will be a subsequent rule amendment to the Medicaid supply lists to notate the specific item or service in question as a value purchased item subject to the provisions of this rule.

Any specifics or financial impact statements relevant to the department as a result of any DME contract being proposed by the department would be contained in future rule filings of OAC rule 5101:3-10-03 "Medicaid Supply List" or 5101:3-10-20 "Covered orthotic and prosthetic services and associated limitations."

As a result of this rule filing, the department estimates that this rule will result in no direct cost of compliance for directly affected stakeholders. Any financial impact resulting from the initiation of a value purchasing program established by the department would be provider specific and dependent on the nature of the durable medical equipment (DME) contract being proposed by the department.

Any specifics or financial impact statements relevant to providers as a result of any DME contract being proposed by the department would be contained in future rule filings of OAC rule 5101:3-10-03 "Medicaid Supply List" or 5101:3-10-20 "Covered orthotic and prosthetic services and associated limitations."
