FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase/decrease** either **revenues /expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will increase expenditures.

\$547.7 million

Federal funding for DSH (approx. \$327.3 million) this year remains flat at 2004 levels. The state share of this expenditure is funded through assesment to Ohio hospitals referenced in rule 5101:3-2-08.1.

The department estimates that this will increase total program expenditures by approx. \$547.7 million for FFY 2005 due to the shift in total matching funds. However, this amount decreases by approx. \$4.8 million from FFY 2004 levels.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

600-650 and 600-649

Expenditures include disproportionate share payments to Ohio hospitals. State share funds come from line item 600-649, federal funds come from line item 600-650.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

This rule will provide Ohio hospitals with approximately \$547.7 million in disproportionate share funding.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **Yes**

You must complete Part B of the Rule Summary and Fiscal Analysis in order to comply with Am. Sub. S.B. 33 of the 120th General Assembly.

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**

Rule Summary and Fiscal Analysis (Part B)

1. Does the Proposed rule have a fiscal effect on any of the following?

(a) School Districts	(b) Counties	(c) Townships	(d) Municipal Corporations
Yes	Yes	Yes	Yes

2. Please provide an estimate in dollars of the cost of compliance with the proposed rule for school districts, counties, townships, or municipal corporations. If you are unable to provide an estimate in dollars, please provide a written explanation of why it is not possible to provide such an estimate.

There is no cost of compliance for school districts, counties, townships or municipal corporations. However, we indicated "yes" due to the fact that some of the hospitals that will be impacted by this rule are owned by government entities other than the state. However, we are uncertain as to how revenues from these government owned hospitals impacts the revenues or operations of the government entity that owns them.

3. If the proposed rule is the result of a federal requirement, does the proposed rule exceed the scope and intent of the federal requirement? **No**

4. If the proposed rule exceeds the minimum necessary federal requirement, please provide an estimate of, and justification for, the excess costs that exceed the cost of the federal requirement. In particular, please provide an estimate of the excess costs that exceed the cost of the federal requirement for (a) school districts, (b) counties, (c) townships, and (d) municipal corporations.

Not Applicable.

5. Please provide a comprehensive cost estimate for the proposed rule that includes the procedure and method used for calculating the cost of compliance. This comprehensive cost estimate should identify all of the major cost categories including, but not limited to, (a) personnel costs, (b) new equipment or other capital costs, (c) operating costs, and (d) any indirect central service costs.
