This will increase expenditures.

\$570.8 million

Federal funding for the 2010 Disproportionate Share Hospital (DSH) program is \$360.4 million. The state share of this expenditure, which is \$207.9 million, is funded through an assessment to Ohio hospitals referenced in rule 5101:3-2-8.1.

Total program expenditures are approximately \$568.3 million for program year 2010. This is an increase from program year 2009 levels by approximately \$2.8

million due to a combination of the increase in the Federal Medical Assistance Percentage (FMAP) rate, the Balanced Budget Act of 1997, the Medicare Modernization Act of 2003 and the American Recovery and Reinvestment Act (ARRA) of 2009.

There is additional federal funding available for program year 2009, which will account for a total distribution of \$2.5 million (\$1.57 million federal share and \$953,448 funded by the revised HCAP 2009 assessment in rule 5101:3-2-08.1).

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

600650 and 600649

Expenditures include disproportionate share payments to Ohio hospitals. State share funds come from line item 600649, federal funds come from line item 600650.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

You must complete Part B of the Rule Summary and Fiscal Analysis in order to comply with Am. Sub. S.B. 33 of the 120th General Assembly.

2. Please provide an estimate in dollars of the cost of compliance with the proposed rule for school districts, counties, townships, or municipal corporations. If you are unable to provide an estimate in dollars, please provide a written explanation of why it is not possible to provide such an estimate.

There is no cost of compliance. This rule will provide Ohio hospitals, including those owned by counties, townships and municipal corporations, with approximately \$568 million in disproportionate share funding. The department estimates that \$49.3 million of the total program dollars will be paid to hospitals owned by counties, townships or municipal corporations. The state share of these payments are funded through an assessment to Ohio hospitals referenced in rule 5101:3-2-08.1. The disproportionate share payments to individual hospitals is dependent upon their cost report data as it is applied to rule 5101:3-2-09.

3. If the proposed rule is the result of a federal requirement, does the proposed rule exceed the scope and intent of the federal requirement? **No**

4. If the proposed rule exceeds the minimum necessary federal requirement, please provide an estimate of, and justification for, the excess costs that exceed the cost of the federal requirement.
