13. Estimate the total amount by which *this proposed rule* would **increase / decrease** either **revenues / expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will have no impact on revenues or expenditures.

\$0.00

This proposed rule will not change the agency's projected budget during the current biennium.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Not Applicable

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

Every year the Healthcare Common Procedural Coding System (HCPCS) is updated with new and deleted codes. Hospitals are required to use this coding system when billing for outpatient services. In order to comply with this rule, hospitals are required to use the updated billing codes and may incur costs associated with updating billing software. Due to providers using different software packages to create invoices, we are unable to provide an estimate of potential changes in costs to providers. The cost described is not new cost and would be required by all payers, not just Medicaid. In addition, hospital reimbursement rates were developed to include administrative costs such as these. This rule maintains current practice of providers updating their billing systems on an annual basis so there should be no new costs to the providers.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **Yes**

You must complete Part B of the Rule Summary and Fiscal Analysis in order to comply with Am. Sub. S.B. 33 of the 120th General Assembly.

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
