\$0.00

Amended Substitute House Bill 1 of the 128th General Assembly increases nursing facility (NF) rates for SFYs 2010 and 2011 by a consolidated services per diem of approximately \$3.91 in lieu of direct payment to fee-for-service (FFS) providers.

The consolidated services per diem reimburses providers for the provision of: oxygen; custom wheelchairs and repairs; skilled therapies (physical, occupational and speech-language pathology/audiology); medical transportation (ambulance and ambulette) and some over-the-counter drugs. The consolidated services per diem includes any cost sharing amounts related to the provision of these services for Medicaid consumers.

This will increase expenditures to NFs by approximately \$144 million over the biennium. Reimbursement of these services to FFS providers will decrease by at least \$153 million.

Based on the best available data, the net reduction of expenditures to the department is \$7.2 million. \$2.5 million in savings is attributable to oxygen, \$3.8 million in savings is attributable to custom wheelchairs and \$3.4 million in savings is attributable to over-the-counter drugs. An increase in expenditures of \$2.5 million is attributable to medical transportation. No savings is attributable to the skilled therapies costs in the nursing facility per diem.

The consolidated services per diem was calculated by considering historic utilization in the nursing facility population, historic Medicaid cost data and market trends that impact purchasing strategies.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Not applicable

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

The proposed changes to the current reimbursement method for these services may result in increased or decreased staffing and administrative costs relative to patient mix and acuity levels. Accordingly, the cost of compliance to directly affected persons will vary among all Medicaid providers and cannot be estimated at this time.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
