Immunizations.**RULE SUMMARY**

1. Is the rule being filed consistent with the requirements of the RC 119.032 review? **Yes**

2. Are you proposing this rule as a result of recent legislation? **No**

3. Statute prescribing the procedure in accordance with the agency is required to adopt the rule: **119.03**

4. Statute(s) authorizing agency to adopt the rule: **5111.02**

5. Statute(s) the rule, as filed, amplifies or implements: **5111.01, 5111.02, 5111.021**

6. State the reason(s) for proposing (i.e., why are you filing,) this rule:

This rule is being amended because of five-year review and to update and clarify vaccine coverage and reimbursement information under the Medicaid program.

7. If the rule is an AMENDMENT, then summarize the changes and the content of the proposed rule; If the rule type is RESCISSION, NEW or NO CHANGE, then summarize the content of the rule:

This rule sets forth the immunizations covered for the Medicaid population.

Changes to Appendix A include adding CPT code 90670 Prevnar 13 (Pneumococcal conjugate vaccine, 13 valent, for intramuscular use) to the list of Medicaid-covered designated free immunizations. Prevnar 13 supersedes Prevnar 7 (CPT 90669) and protects children under five years of age against six additional subtypes of *Streptococcus pneumoniae* bacteria that cause invasive pneumococcal diseases such as meningitis, pneumonia, and other serious infections.

Coverage information for CPT code 90649 [HPV vaccine, types 6, 11, 16, 18 (quadrivalent), 3 dose schedule, for intramuscular use] has been updated in paragraph (B)(5) to reflect recommendations issued by the Advisory Committee on Immunization Practices (ACIP). Males ages nine to eighteen may also be immunized against HPV using the quadrivalent vaccine (CPT 90649).

In addition, the reimbursement amount for CPT code 90650 (HPV vaccine, types 16, 18 bivalent, 3 dose schedule, for intramuscular use) is being changed in Appendix A from "By Report" to \$10 to clarify its coverage through the Vaccines for Children (VFC) program. A footnote has been added to Appendix A and a sentence to paragraph (B)(5), clarifying that CPT code 90650 is for females age nine through eighteen only.

Additionally, Appendix B is being amended to clarify that CPT codes 90634, 90707, 90710, 90733 and 90734 are covered services and to change the reimbursement amount for CPT code 90734 from "By Report" to \$100.43 to clarify its coverage for adults.

8. If the rule incorporates a text or other material by reference and the agency claims the incorporation by reference is exempt from compliance with sections 121.71 to 121.74 of the Revised Code because the text or other material is **generally available** to persons who reasonably can be expected to be affected by the rule, provide an explanation of how the text or other material is generally available to those persons:

This rule incorporates one or more references to another rule or rules of the Ohio Administrative Code. This question is not applicable to any incorporation by reference to another OAC rule because such reference is exempt from compliance with RC 121.71 to 121.74 pursuant to RC 121.76(A)(3).

This rule incorporates one or more dated references to the Centers for Disease Control (CDC) immunization recommendations, which are generally accepted industry standards. Each reference is dated and is generally available to persons affected by this rule via <http://www.cdc.gov/vaccines/>, in accordance with RC 121.75(E).

This rule incorporates one or more dated references to the American Academy of Pediatrics (AAP) immunization recommendations, which are generally accepted industry standards. Each reference is dated and is generally available to persons

affected by this rule via <http://www.cispimmunize.org>, in accordance with RC 121.75(E).

This rule incorporates one or more dated references to the Advisory Committee on Immunization Practices (ACIP) recommendations, which are generally accepted industry standards. Each reference is dated and is generally available to persons affected by this rule via <http://www.immunize.org/acip>, in accordance with RC 121.75(E).

9. If the rule incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material electronically, provide an explanation of why filing the text or other material electronically was infeasible:

Not applicable.

10. If the rule is being **rescinded** and incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material, provide an explanation of why filing the text or other material was infeasible:

Not Applicable.

11. If **revising** or **refiling** this rule, identify changes made from the previously filed version of this rule; if none, please state so:

Not Applicable.

12. 119.032 Rule Review Date: **5/11/2010**

(If the rule is not exempt and you answered NO to question No. 1, provide the scheduled review date. If you answered YES to No. 1, the review date for this rule is the filing date.)

NOTE: If the rule is not exempt at the time of final filing, two dates are required: the current review date plus a date not to exceed 5 years from the effective date for Amended rules or a date not to exceed 5 years from the review date for No Change rules.

FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase/decrease** either **revenues /expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the

budget of your agency/department.

This will increase expenditures.

1200.00

Prevnar 13 (CPT 90670) succeeds Prevnar 7 (CPT 90669), the currently covered vaccine for children against *Streptococcus pneumoniae* bacteria. Because the administration fee paid to providers is not increasing or decreasing, the rule is not expected to increase the Department's annual expenditures.

Clarification of the coverage of the quadrivalent HPV vaccine (CPT 90649) for males between the ages of nine and eighteen, may increase expenditures. An estimated 60 males between the ages of nine and eighteen may receive the vaccine in 2010. This would increase departmental expenditures by \$600 annually, \$1200.00 biennially.

In addition, the reimbursement amount for CPT code 90650 (HPV vaccine, types 16, 18 bivalent, 3 dose schedule, for intramuscular use) is being changed in Appendix A from "By Report" to \$10 to clarify its coverage through the Vaccines for Children (VFC) program. This change is not expected to increase or decrease expenditures.

The amendment to Appendix B to add CPT codes 90634, 90707, 90710, 90733 and 90734 is not expected to increase expenditures because this amendment merely reflects current reimbursement practice.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

ALI 600525

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

There is estimated to be no new cost of compliance for this rule. The new vaccine, Prevnar 13, replaces Prevnar 7. Both vaccines are provided free to providers via the Vaccines for Children (VFC) program administered by the Ohio Department of Health. Providers are reimbursed for the administration of the vaccine. The quadrivalent (CPT 90649) and bivalent (CPT 90650) HPV vaccines are also provided free to providers via the Vaccines for Children (VFC) program. Providers are reimbursed \$10 for the administration of the vaccine. Providers will continue to be reimbursed the current rate for CPT codes 90634, 90707, 90710, 90733, and 90734 which are being added to Appendix B. Therefore, there is no cost of compliance associated with this change.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
