

5101:3-41-12      **Prior authorization requirements for waiver services administered by the Ohio department of mental retardation and developmental disabilities.**

(A) Purpose

The purpose of this rule is to establish standards and procedures for prior authorization of waiver services when the individual funding level exceeds the funding range determined by the Ohio developmental disabilities profile (ODDP) for medicaid waiver services administered pursuant to section 5111.871 of the Revised Code. The procedures set forth in this rule shall only apply to the individual options program authorized by rule 5101:3-40-01 of the Administrative Code and shall not apply to services administered as part of the "Level One" waiver authorized by rule 5101:3-42-01 of the Administrative Code.

(B) Definitions

- (1) "CBMRDD" means the county board of mental retardation and developmental disabilities.
- (2) "Funding range" means the dollar range to which an individual has been assigned for the purpose of funding waiver services. The funding range applicable to an individual is determined by the score derived from an assessment using the ODDP that has been completed by a county board employee qualified to administer the tool. ~~If prior authorization is issued pursuant to this rule, the dollar range in which the individual funding level resides shall be considered the funding range for the duration of the individual's waiver eligibility span or for the period specified in the written notification provided pursuant to paragraph (G) or (J) of this rule.~~
- (3) "Individual" means a person with mental retardation or other development disability who is eligible to receive home and community based services (HCBS) as an alternative to placement in an intermediate care facility for the mentally retarded under the applicable HCBS waiver. A guardian or authorized representative as defined in rule ~~5101:1-2-01~~ 5101:1-38-01.2 of the Administrative Code may take any action on behalf of the individual, may make choices for an individual or may receive notice on behalf of an individual to the extent permitted by applicable law.
- (4) "Individual funding level" means the total funds, calculated on a twelve month basis, that are necessary for payment for waiver services that have been determined through the individual service plan (ISP) development process to be sufficient in amount, duration and scope to meet the health and welfare needs of an individual. When prior authorization is issued pursuant to this rule for a period less than a twelve month waiver eligibility span, the

individual funding level is the sum of the actual cost of services provided before the authorization period initiated, and the projected cost of services through the end of the individual's waiver eligibility span.

- (5) "ISP" means the individual service plan, a written description of the services, supports, and activities to be provided to an individual.
  - (6) "Ohio developmental disabilities profile (ODDP)" means the standardized instrument utilized by the Ohio department of mental retardation and developmental disabilities (ODMRDD) to assess the relative needs and circumstances of an individual compared to others. The consumer-specific responses are scored and the individual is assigned to a funding range, which enables similarly-situated individuals to access comparable services under the waiver on a statewide basis.
  - (7) "ODJFS" means the Ohio department of job and family services.
  - (8) "ODMRDD" means the Ohio department of mental retardation and developmental disabilities.
  - (9) "Payment authorization for waiver services (PAWS)" means the process followed and the form used to communicate the amount and payment for each waiver service that has been established through the approved ISP process and that is contained in the ISP of an eligible enrollee.
  - (10) "Waiver eligibility span" means the twelve month period that begins on the effective date of the individual's initial waiver enrollment or date of re-determination.
- (C) ~~ODMRDD will review requests from individuals for prior authorization of waiver services when the individual funding level resulting from the ISP exceeds the funding range determined by the ODDP. When an ISP is developed pursuant to rule 5123:2-9-06 of the Administrative Code and the individual funding level is determined to exceed the funding range determined by the ODDP, then the ODMRDD shall:~~
- (1) Review the ODDP to verify the accuracy of the assessment information.
  - (2) Review the ISP to assure the waiver services are consistent with efficiency, economy and quality of care pursuant to rule 5101:3-40-01 of the Administrative Code.
