Food stamps: types of excluded income.

In the Food Stamp Act of 1977, congress specified the types of income that are excluded for program purposes. Only the following payments are to be excluded from AG income, and no other income shall be excluded. In-kind or vendor payments which would normally be excluded as income but are converted in whole or in part to a direct cash payment under the approval of a federally authorized demonstration project (including projects created by the waiver of provisions of federal law) shall also be excluded from income.

- (A) Any gain or benefit which is not in the form of money payable directly to the AG including in-kind benefits. "In-kind benefits" are those for which no monetary payment is made on behalf of the AG and include meals, clothing, public housing, or produce from a garden.
- (B) A "vendor payment" is a money payment made on behalf of an AG by a person or organization outside of the AG directly to either the AG's creditors or to a person or organization providing a service to the AG.
- (C) Payments made to a third party on behalf of the AG are included or excluded as income as follows:
 - (1) Public assistance (PA), including disability assistance (DA), vendor payments are counted as income unless they are made for medical assistance, child care assistance, energy assistance as defined in paragraph (K) of this rule, ~~or~~ emergency assistance (including, but not limited to housing and transportation payments) for migrant or seasonal farmworker AGs while they are in the job stream, or housing assistance payments made through a state or local housing authority.
 - (2) Public assistance provided to a third party on behalf of an AG which is not specifically excluded from consideration as income under paragraph (C)(1) of this rule shall be considered for exclusion under the emergency and special assistance category. To be considered emergency or special assistance and excluded, the assistance must be provided over and above the normal PA payment or cannot normally be provided as part of such payment.
 - (3) Educational assistance provided to a third party on behalf of the AG for living expenses shall be treated the same as educational assistance payable directly to the AG and not excluded as a vendor payment.

- (4) Reimbursements made in the form of vendor payments are excluded on the same basis as reimbursements paid directly to the AG in accordance with paragraph (G) of this rule.
 - (5) In-kind or vendor payments which would normally be excluded as income but are converted in whole or in part to a direct cash payment under a federally authorized demonstration project or waiver shall be excluded from income.
 - (6) Rent or mortgage payments made to landlords or mortgagees by HUD are excluded.
 - (7) Monies that are legally obligated and otherwise payable to the AG, but which are diverted by the provider of the payment to a third party for a household expense, shall be counted as income and not excluded. If a person or organization makes a payment to a third party on behalf of an AG using funds that are not owed to the AG, the payment shall be excluded from income.
- (D) The county agency shall exclude any income that is specifically excluded by any other federal statute from consideration as income for the purpose of determining eligibility for the food stamp program. The following laws provide such an exclusion. The following is a listing of some of the incomes excluded by federal statute. The listing is divided into general income exclusions and exclusions applicable to incomes of American Indians or Alaska Natives.
- (1) General exclusions
 - (a) Income of an SSI recipient determined necessary for the fulfillment of a plan for achieving self-support (PASS) which has been approved under sections 1612(b)(4)(A)(iii) or 1612(b)(4)(B)(iv) of the Social Security Act. This income may be spent in accordance with an approved PASS or deposited into a PASS savings account for future use.
 - (b) Federal emergency management assistance housing subsidies to pay for temporary housing required as a result of a disaster and individual and family grant assistance payments made under the Disaster Relief Act (section 312(d) of the Disaster Relief Act of 1974, as amended in 1988).

Temporary interruptions in food stamp participation shall not alter the exclusion once an initial determination has been made. Any payment to volunteers under Title II (RSVP, foster grandparents, senior companion program and others) are excluded from income.

Payments precipitated by an emergency or major disaster as defined in this act, as amended, are not counted as income for food stamp purposes. This exclusion applies to federal assistance provided to persons directly affected and to comparable disaster assistance provided by states, local governments, and disaster assistance organizations. A "major disaster" is any natural catastrophe such as a hurricane or drought, or, regardless of cause, any fire, flood, or explosion, which the president of the United States determines causes damage of sufficient severity and magnitude to warrant major disaster assistance to supplement the efforts and available resources of states, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby. An "emergency" is any occasion or instance for which the president of the United States determines that federal assistance is needed to supplant state and local

efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe. All americorps payments shall be excluded.

- (1) The county agency shall first exclude all amounts which are required to be totally excluded from consideration as income.
 - (2) Educational assistance not totally excluded as provided for in paragraph (D)(1) of this rule shall be excluded as follows. These provisions apply to federal, state, local, and private educational assistance received by a student and educational assistance provided directly to the student's school or parent or guardian:
 - (a) Earmarked. The county agency shall first exclude amounts of assistance identified (earmarked) by the institution, school, program, or other grantor as made available for the specific costs of tuition, mandatory school fees (including the rental or purchase of any equipment, materials, and supplies related to the pursuit of the course of study involved), books, supplies, dependent care, transportation, and miscellaneous personal expenses (other than normal living expenses). Amounts earmarked as miscellaneous personal expenses for living expenses such as, but not limited to, food, rent, room or board, clothing, and personal hygiene items, shall not be excluded. Amounts earmarked separately from miscellaneous personal expenses for living expenses

shall not be excluded. In situations where the institution, school, program, or other grantor has earmarked educational assistance for the allowable costs involved but such earmarking identifies multiple sources of educational assistance and multiple expenses without specifically identifying which educational source is made available for which expense, the county agency shall exclude the total amount of earmarked allowable costs from the total nonexcluded educational income provided. The allowable costs shall not be excluded from each individual education source unless clearly earmarked in that manner.

- (b) Used for. If the institution, school, program, or other grantor does not earmark amounts for the allowable expenses or tuition, mandatory fees, books, supplies, dependent care, transportation, or miscellaneous personal expenses, an exclusion from educational income shall be granted for such allowable educational expenses (other than identifiable normal living expenses such as, but not limited to, food, rent, room or board, clothing, and personal hygiene items) to the extent the assistance is used for such allowable expenses. When the amounts earmarked by the institution, school, program, or other grantor are less than the student actually used for the allowable expense involved, an exclusion shall be allowed for amounts used over the earmarked amounts. Origination fees and insurance premiums on educational loans shall be excluded. When the amounts used for allowable expenses are more than amounts earmarked by the institution, school, program or other grantor, an exclusion shall be allowed for amounts used over the earmarked amounts. Exclusions based on use shall be subtracted from unearned educational income to the extent possible. If the unearned educational income is not enough to cover the expense, the remainder of the allowable expense shall be excluded from earned educational income.
- (3) The following additional procedures apply with regard to educational assistance excluded pursuant to paragraphs (E)(2)(a) and (E)(2)(b) of this rule (not totally excluded):
- (a) Amounts of allowable expenses to be excluded based on "use" pursuant to the provisions of "used for" and "use exceeds earmarked amount" as provided for in paragraphs (E)(2)(a) and (E)(2)(b) of this rule are those incurred or anticipated for the period the educational income is intended to cover regardless of when the educational income is actually received. The first month that educational income would be counted is the month in which it is received although it is still prorated over the period it is intended to cover. If a student uses other income sources for allowable educational expenses in months before the educational income is received, the expense shall be excluded from the educational income

when the educational income is received.

- (b) Where a student receives more than one source of educational income that is not totally excluded, all of the student's nonexcluded educational income, except for nonexcluded work study income, shall first be totaled. Allowable expenses based on earmarking and use shall be totaled and subtracted from this amount. If the nonwork study income is not enough to cover the allowable expenses, any allowable expense not covered shall be excluded from the work study income before the twenty per cent earned income deduction is computed.
 - (c) Where work study income is received monthly in relation to costs of attendance that are usually incurred on a less frequent basis, the county agency shall anticipate the work study income for the appropriate quarter, semester, or year, exclude the allowable costs, and prorate the remaining amount over the quarter, semester, or year.
 - (d) The twenty per cent earned income deduction shall be applied to work study income and income from a fellowship with a work requirement remaining after the allowable exclusions are made pursuant to paragraphs (E)(2)(a) and (E)(2)(b) of this rule.
 - (e) An individual's total educational income exclusions granted under the provisions of paragraphs (E)(2)(a) and (E)(2)(b) of this rule cannot exceed that individual's total educational income.
 - (f) The student shall have the primary responsibility for obtaining and providing the county agency with verification of allowable exclusions. Acceptable forms of verification may include school budget sheets, receipts, collateral contacts, or other forms of reasonable verification such as prevailing public transportation rates to verify an exclusion for transportation costs.
 - (g) Amounts excluded for dependent care costs shall not be deducted from income under the provisions of rule 5101:4-4-23 of the Administrative Code. Dependent care costs incurred which exceed the amount excluded under the provisions of paragraphs (E)(2)(a) and (E)(2)(b) of this rule shall be deducted from income in accordance with rule 5101:4-4-23 of the Administrative Code.
- (F) All loans, including loans from private individuals as well as commercial institutions, other than educational loans on which repayment is deferred, are excluded as income. Educational loans on which repayment is deferred shall be excluded

pursuant to the provisions in paragraphs (E)(1), (E)(2)(a), (E)(2)(b), and (E)(3) of this rule, as appropriate. A loan on which repayment must begin within sixty days after receipt of the loan shall not be considered a deferred repayment loan.

(G) Reimbursements for past or future expenses are excluded to the extent they do not exceed actual expenses and do not represent a gain or benefit to the AG. The following shall not be considered a reimbursement excludable under this paragraph: No portion of benefits provided under Title IV-A of the Social Security Act, to the extent such benefits are attributed to adjustment for work-related or child care expenses shall be considered excludable under this paragraph. No portion of any educational assistance that is provided for normal living expenses (room and board) shall be considered a reimbursement excludable under this paragraph.

(1) When a reimbursement, including a flat allowance, covers multiple expenses, each expense does not have to be separately identified as long as none of the reimbursement covers normal living expenses. Reimbursements for normal living expenses of the AG, such as rent or mortgage, personal clothing, or food eaten at home, are a gain or benefit and therefore are not excluded. To be excluded, these payments must be provided specifically for an identified expense, other than normal living expenses, and used for the purpose intended.

(2) The amount by which a reimbursement exceeds the actual incurred expense shall be counted as income. However, reimbursements shall not be considered to exceed the actual expenses, unless the provider or the AG indicates the amount is excessive.

(H) Monies received and used for the care and maintenance of a third-party beneficiary who is not an AG member. If the intended beneficiaries of a single payment are both AG and non-AG members, any identifiable portion of the payment intended and used for the care and maintenance of the non-AG member shall be excluded. If the non-AG member's portion cannot be readily identified, the payment shall be evenly prorated among intended beneficiaries and the exclusion applied to the non-AG member's pro rata share or the amount actually used for the non-AG member's care and maintenance, whichever is less.

(I) The earned income of any AG members who live with a natural, adoptive, or stepparent, or under the parental control of an AG member other than a parent, who are elementary or secondary school students, and who are seventeen years of age or younger. For purposes of this provision, an "elementary or secondary school student" is someone who attends classes to obtain a general equivalency diploma (GED) that are recognized, operated, or supervised by the student's state or local school district. The provision also applies to a student who attends elementary or secondary classes through a home-school program recognized or supervised by the

student's state or local school district. This income is excluded even during temporary interruptions in school attendance due to semester or vacation breaks, provided the child's enrollment will resume following the break. If the child's earnings or the amount of work performed cannot be differentiated from that of other AG members, the total earnings shall be prorated equally among the working members and the child's pro rata share excluded. Individuals are considered children for this exclusion if they are under the parental control of another AG member. If an AG contains a student whose income is excluded and the student turns eighteen during the month of application, the student's earnings shall be excluded in the month of application and counted in the following month(s). If the student turns eighteen during the certification period, the student's income shall be excluded until the month following the month in which the student turns eighteen.

- (J) Money received in the form of a nonrecurring lump-sum payment, including, but not limited to, income tax refunds, rebates, or credits; retroactive lump-sum social security, SSI, PA, railroad retirement pension, the learning, earning and parenting (LEAP) program enrollment bonus payment, or other payment; retroactive lump-sum insurance settlements; refunds of security deposits on rental property or utilities; or prevention, retention and contingency (PRC) payments made to divert an AG from becoming dependent on cash assistance if the payment is not defined as assistance. (TANF non-recurrent, short term benefits are defined in 45 CFR 261.31(b)(1). These payments shall be counted as resources in the month received, unless specifically excluded from consideration as a resource by other federal laws.

(K) Miscellaneous income exclusions.

The following are miscellaneous income exclusions.

(1) Irregular income

Any income in the certification period which is acquired too infrequently or irregularly to be reasonably anticipated, but not in excess of thirty dollars in a quarter.

(2) Costs of self-employment

The cost of producing self-employment income. See rule 5101:4-6-11 of the Administrative Code for the procedures on computing the cost of producing self-employment income.

(3) Income from ineligible AG members

The prorated share of earned or unearned income of an ineligible AG member in accordance with rule 5101:4-6-13 of the Administrative Code.

(4) Energy assistance, as follows:

- (a) Any payments or allowances made for the purpose of providing energy assistance under any federal law other than part A of Title IV of the Social Security Act (42 U.S.C. 601 et seq.), including utility reimbursements made by the department of housing and urban development and the rural housing service, or
- (b) A one-time payment or allowance applied for on an as-needed basis and made under a federal or state law for the costs of weatherization or emergency repair or replacement of an unsafe or inoperative furnace or other heating or cooling device. A down payment followed by a final payment upon completion of the work will be considered a one-time payment for purposes of this provision.

(L) Certain payments from the child and adult care food program

That portion of payments from the child and adult care food program (CACFP) to AGs providing child care services intended for the provider's own children's meals. See rule 5101:4-4-19 of the Administrative Code for treatment of that portion of CACFP payments intended for providing services to children other than the provider's own.

(M) Payments which are not considered income.

The following payments are not considered income.

- (1) Monies withheld from an assistance payment, earned income, or other income source, or monies received from any income source which are voluntarily or involuntarily returned to repay a prior overpayment received from the income source, provided that the overpayment is not otherwise excluded. However, monies withheld from assistance from a federal, state, or local means-tested program (for example, OWF; or DA, ~~or SSI~~) due to the AG's failure to perform an action required under these programs, comply with the other program's requirements, shall be included as income in accordance with rule 5101:4-6-16 of the Administrative Code.
- (2) Child support payments received by OWF recipients which must be transferred to the agency administering Title IV-D of the Social Security Act of 1935, as amended, to maintain OWF eligibility.
- (3) Governmental or court-ordered foster care payments received by AGs with

foster care individuals who are considered to be boarders.
