The Ohio Department of Mental Health (ODMH) is proposed OAC rule 5122-29-33) as a new mental health service, in order to seek approval from the Centers for Medicare and Medicaid services to include health home service as one of Ohio's community mental health Medicaid reimbursable services. Health home service is a coordinated, person-centered system of care. Better care coordination

Not applicable.

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

An agency voluntarily chooses to seek ODMH certification in health home service. Rules 5122-26-19 and 5122-26-19.1 of the Administrative Code describe the process for a provider to report to ODMH costs associated with the delivery of any ODMH certified mental health service. Each provider must derive the monthly case rate in accordance with these rules. The proposed rate will need to be approved by the state and subsequently the provider will be paid 100% of the costs.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

S.B. 2 (129th General Assembly) Questions

18. Has this rule been filed with the Common Sense Initiative Office pursuant to R.C. 121.82? **Yes**

19. Specific to this rule, answer the following:

A.) Does this rule require a license, permit, or any other prior authorization to engage in or operate a line of business? **Yes**

A mental health agency is required to obtain ODMH certification if it wants to bill the community mental health Medicaid program and/or seek a contract with its local mental health board to receive local/public funding for the service.

Providers seeking other sources of funding for a service, e.g. contracts with insurance companies, private pay, etc. may operate without ODMH certification.

B.) Does this rule impose a criminal penalty, a civil penalty, or another sanction,

or create a cause of action, for failure to comply with its terms? **Yes**

Sanction: An agency may be issued a probationary certificate for failure to submit an approved plan of correction, or for non-compliance with any certification standard. There is no other sanction associated with the issuance of a probationary certificate, i.e. there are no fines or other consequences.

Cause of Action: ODMH can initiate a hearing under Chapter 119 of the Revised Code to revoke an agency's certification for failure to submit an approved plan of correction, or for non-compliance with any certification standard.

C.) Does this rule require specific expenditures or the report of information as a condition of compliance? **Yes**

There is a cost associated with obtaining the requisite integrated behavioral health/physical health care accreditation/certification. Certified providers are required to report data and meet health home performance measurements which consist of mandatory Centers for Medicare and Medicaid Services (CMS) core measures and measures established by the Ohio department of mental health. CMS requires the collection and reporting of data as a condition of approving health home services as a Medicaid reimbursable service.
