14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

There will be an initial increase in cost of compliance for staff training and printing. The Department of Mental Health is unable to determine an estimate for staff training. Facilities will incur an initial expense to train staff on the new resident rights and grievance procedure policy. The cost will vary by facility depending in part on the number of staff employed, whether the training can be incorporated into other scheduled training, facility's method of training, e.g. computer based, in person in-service, provide copy to staff to review, utilization of free ODMH training, etc. It is estimated that the average training time will be between 1 - 2 hours/staff. There will also be an initial cost to print copies of the new resident rights and grievance procedure. These costs will vary by provider, dependent upon whether the facility will do its own printing in-house, number of copies needed to provide residents, whether facility prints on standard 8 1/2 X 11 paper or creates brochures, method of posting a copy in an accessible location (paper, poster, etc.). Based on outside printing costs of brochures, paper and posters, it is estimated the initial printing cost will be between \$50 and \$400. After updating its existing stock of policies and procedures, the on-going costs should be the same as under the current rule.

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
