\* The appendix to the rescinded rule addressed four groups of surgical procedures the characteristics of which may affect how they are reported on a claim and how payment for them is made: (1) multiple procedures, for which payment is reduced when more than one is performed; (2) bilateral procedures, for which payment is adjusted when they are performed on both body parts of a corresponding pair; (3) assistant-at-surgery procedures, for which payment is reduced when they are performed by an assistant at surgery; and (4) procedures performed on fingers, toes, eyelids, or coronary arteries. This information is now specified in the rule body, and a provision is added stating that the department follows Medicare policies concerning these procedures.

\* A restriction is removed that disallowed payment for an assistant-at-surgery procedure performed by someone other than a physician.
