Changes incorporated into the rule body include the following:

A dated reference to the provider type "fee-for-service clinic" has been updated to "ambulatory health care clinic". The date of the Code of Federal Regulations (C.F.R.) definition of "Metropolitan statistical area (MSA)" has been updated.

Changes incorporated into appendix A include the following:

Covered services are updated based on new procedure codes added to the American Dental Association (ADA) Code on Dental Procedures and Nomenclature (CDT) for 2023. The appendix contains service definitions, quantity and frequency limits, conditions and restrictions, and requirements for prior authorization (PA) for the newly listed services. Note that new CDT services that were added in 2023 were previously added to the Appendix DD to rule 5160-1-60 revised January 1, 2023.

A statement is added clarifying policy on quantity/frequency limits, which may be exceeded with prior authorization based on medical necessity. The frequency limits for complete, immediate, and partial dentures are changed from "1 per 8 years, except in very unusual circumstances" to "1 per 8 years." Adult dental prophylaxis and periodic oral evaluations coverage is amended to remove unnecessary language. The quantity/frequency limits are removed for sealants and interim caries arresting medicament application. The restriction of only anterior teeth being covered for fused porcelain or porcelain/ceramic substrate crowns is removed. Minor changes are made to service descriptions throughout for clarity.

These changes will enhance the dental services and treatment options while aligning the dental codes and rates for consistency.

This rule incorporates one or more references to another rule or rules of the Ohio Administrative Code. This question is not applicable to any incorporation by reference to another OAC rule because such reference is exempt from compliance with RC 121.71 to 121.74 pursuant to RC 121.75.
