13. Estimate the total amount by which *this proposed rule* would **increase / decrease** either **revenues / expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will have no impact on revenues or expenditures.

\$0

The department estimates that changes in this rule will have no fiscal impact on the current biennium budget.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Not Applicable.

15.

Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

The cost of compliance lies in the time needed to complete documentation of medical necessity and the services provided. Completing documentation of medical necessity and the services provided takes between five and thirty minutes of provider staff time. This estimate is based on the personal experience of practicing dentists, including the ODM medical technical advisors (MTAs). The wage cost depends on who performs the task. The median statewide hourly wage for a billing clerk, according to Labor Market Information (LMI) data published by the Ohio Department of Job and Family

Services, is \$16.10; for a dentist, it is \$87.21. Adding 30% for fringe benefits brings these figures to \$20.93 and \$113.37. Therefore, generating a necessary document costs between \$1.75 (five minutes at \$20.93 per hour) and \$56.69 (thirty minutes at \$113.37 per hour).

16. Does this rule have a fiscal effect on school districts, counties, townships, or municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **No**
