

901:1-5-08

Recertifying a certified brucellosis free area.

- (A) The department of agriculture may recertify a certified brucellosis-free area for an additional six year period if it meets all requirements for establishing a certified brucellosis-free area stated in regulation 901:1-5-07.
- (B) If the percentage of infected herds in a formerly certified brucellosis-free area exceeds the limit for initial certified brucellosis-free status, the department shall designate it as a modified certified brucellosis area and may recertify it only when it meets the requirements for initial designation as a certified brucellosis-free area.
