This will increase expenditures.

Unknown.

As outlined by ORC Chapter 956, the Department is required to license all pet stores in the state of Ohio. Further, the Department is to inspect these license holders for

adherence to the laws and rules. Therefore, the Department will see an increase in both expenditures and revenue as the Department is establishing a new program. The cost of the program remains to be seen.

12. What are the estimated costs of compliance for all persons and/or organizations directly affected by the rule?

The rules require specific pieces of information and documents to be recorded and maintained. The rules do not require that the records be submitted to the Department however, the license holders must make the records available upon request. The quantified adverse impact for the recordkeeping requirements should be minimal. The record keeping data should be easily obtained if not already obtained by the pet stores. There will be an adverse impact for storage of these records however, the rules do not specify the format for how these records must be maintained.

Failure to comply with the rules could subject individuals to fines. All fines are established in ORC 956.22 which states that the fines shall not be more than \$500 for the first violation, not more than \$2,000 for the second violation, and not more than \$10,000 for the third violation.
