

Rule Summary and Fiscal Analysis (Part A)**Department of Agriculture**

Agency Name

Livestock Environmental Permitting

Division

William A. Hopper, Jr.

Contact

8995 E. Main St. Reynoldsburg OH 43068-3399

Agency Mailing Address (Plus Zip)

614-728-6430

Phone

614-995-4585

Fax

901:10-3-11

Rule Number

NEW

TYPE of rule filing

Rule Title/Tag Line

Stormwater permits general and individual.**RULE SUMMARY**

1. Is the rule being filed consistent with the requirements of the RC 119.032 review? **No**

2. Are you proposing this rule as a result of recent legislation? **Yes**

Bill Number: **HB152**General Assembly: **125**Sponsor: **Rep. Reinhard**

3. Statute prescribing the procedure in accordance with the agency is required to adopt the rule: **119.03**

4. Statute(s) authorizing agency to adopt the rule: **903.08, 903.10**

5. Statute(s) the rule, as filed, amplifies or implements: **903.01, 903.02, 903.08, 903.082, 903.09, 903.10**

6. State the reason(s) for proposing (i.e., why are you filing,) this rule:

To amend rules by setting forth and requiring compliance with regulations as required by s.B. 141 as amended by H.B. 152 and to adopt and rescind rules to carry out H.B. 152.

7. If the rule is an AMENDMENT, then summarize the changes and the content of the proposed rule; If the rule type is RESCISSION, NEW or NO CHANGE, then summarize the content of the rule:

Rule requires construction stormwater permits for activities that disturb one or more acres of land instead of five or more acres of land as required by USEPA in 40 CFR 122.26. Requires permits for industrial stormwater activities and describes permit requirements.

8. If the rule incorporates a text or other material by reference and the agency claims the incorporation by reference is exempt from compliance with sections 121.71 to 121.74 of the Revised Code because the text or other material is **generally available** to persons who reasonably can be expected to be affected by the rule, provide an explanation of how the text or other material is generally available to those persons:

This response left blank because filer specified online that the rule does not incorporate a text or other material by reference.

9. If the rule incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material electronically, provide an explanation of why filing the text or other material electronically was infeasible:

This response left blank because filer specified online that the rule does not incorporate a text or other material by reference.

10. If the rule is being **rescinded** and incorporates a text or other material by reference, and it was **infeasible** for the agency to file the text or other material, provide an explanation of why filing the text or other material was infeasible:

Not Applicable.

11. If **revising** or **refiling** this rule, identify changes made from the previously filed version of this rule; if none, please state so:

The definition of discharge was removed from (A) because it is now in 901:10-1-01 "Definitions." (A)(15) has been supplemented with a definition to cover "industrial stormwater," as requested by USEPA to further clarify that 901:10-3-11 covers two types of stormwater NPDES permits, i.e., construction and industrial. (B) is supplemented with procedures for designation and petition which are addressed for general permits in 901:10-4 but are specifically included here for both types of stormwater general permits. This is also true for addition of (e), (f), (g), and (h) to (C)(1) of this rule. Like Chapter 901:10-4 on General Permits, stormwater general permits may change to individual permits based on criteria added here to (C). Deleted the word "developer" since permits may be issued only to owner or operator. Finally, added a new (E)(1)(b) to require that the stormwater pollution

plan is a condition of the stormwater permit and that compliance is required not later than three years after date of issuance.

12. 119.032 Rule Review Date:

(If the rule is not exempt and you answered NO to question No. 1, provide the scheduled review date. If you answered YES to No. 1, the review date for this rule is the filing date.)

NOTE: If the rule is not exempt at the time of final filing, two dates are required: the current review date plus a date not to exceed 5 years from the effective date for Amended rules or a date not to exceed 5 years from the review date for No Change rules.

FISCAL ANALYSIS

13. Estimate the total amount by which *this proposed rule* would **increase / decrease** either **revenues / expenditures** for the agency during the current biennium (in dollars): Explain the net impact of the proposed changes to the budget of your agency/department.

This will have no impact on revenues or expenditures.

0

This rule will have no impact on revenue or expenditures.

This rule will have no impact on the budget.

14. Identify the appropriation (by line item etc.) that authorizes each expenditure necessitated by the proposed rule:

Item 700-418

Expenditures N/A

15. Provide a summary of the estimated cost of compliance with the rule to all directly affected persons. When appropriate, please include the source for your information/estimated costs, e.g. industry, CFR, internal/agency:

Industry standards and specifications put into rule. The cost of compliance is minimal if in compliance with the rules.

16. Does this rule have a fiscal effect on school districts, counties, townships, or

municipal corporations? **No**

17. Does this rule deal with environmental protection or contain a component dealing with environmental protection as defined in R. C. 121.39? **Yes**

You must complete the Environmental rule Adoption/Amendment Form in order to comply with Am. Sub. 106 of the 121st General Assembly.

Page E-1

Rule Number: 901:10-3-11

Environmental Rule Adoption/Amendment Form

Pursuant to Am. Sub. H.B. 106 of the 121st General Assembly, prior to adopting a rule or an amendment to a rule dealing with environmental protection, or containing a component dealing with environmental protection, a state agency shall:

- (1) Consult with organizations that represent political subdivisions, environmental interests, business interests, and other persons affected by the proposed rule or amendment.
 - (2) Consider documentation relevant to the need for, the environmental benefits or consequences of, other benefits of, and the technological feasibility of the proposed rule or rule amendment.
 - (3) Specifically identify whether the proposed rule or rule amendment is being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal environmental law or to participate in a federal environmental program, whether the proposed rule or rule amendment is more stringent than its federal counterpart, and, if the proposed rule or rule amendment is more stringent, the rationale for not incorporating its federal counterpart.
 - (4) Include with the proposed rule or rule amendment and rule summary and fiscal analysis required to be filed with the Joint Committee on Agency Rule Review information relevant to the previously listed requirements.
-

(A) Were organizations that represent political subdivisions, environmental interests, business interests, and other persons affected by the proposed rule or amendment consulted ? **Yes**

Please list each contact.

Please see attachment 1 of 901:10-3-11

(B) Was documentation that is relevant to the need for, the environmental benefits or consequences of, other benefits of, and the technological feasibility of the proposed rule or amendment considered ? **Yes**

Please list the information provided and attach a copy of each piece of documentation to this form. (A SUMMARY OR INDEX MAY BE ATTACHED IN LIEU OF THE ACTUAL DOCUMENTATION.)

Please see attachment 2 of 901:10-3-11

(C) Is the proposed rule or rule amendment being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal

environmental law or to participate in a federal environmental program ?
Yes

Is the proposed rule or rule amendment more stringent than its federal counterpart ? **No**

(D) If this is a rule amendment that is being adopted under a state statute that establishes standards with which the amendment is to comply, is the proposed rule amendment more stringent than the rule that it is proposing to amend? **No**

Not Applicable
