

901:11-2-30

Drying.

Each dryer should be operated at not more than the manufacturer's rated capacity for the highest quality dry product and consistent with the most efficient operation. This does not preclude the remodeling or redesigning of dryers after installation or after properly engineering. The dry products shall be removed from the drying chamber continuously during the drying process.

Five Year Review (FYR) Dates: 10/24/2017 and 10/24/2022
