6. What are the reasons for proposing the rule?

This rule is up for five year rule review.

7. Summarize the rule's content, and if this is an amended rule, also summarize the rule's changes.

The rules in chapter 901:5-1 of the Ohio Administrative Code regulate the labeling, weighing, manufacturing and distributing of fertilizer in the state of Ohio. The rules ensure that individuals seeking to purchase fertilizer have the consumer confidence to expect that the product they seek to purchase meets their expectations.

OAC 901:5-1-01 sets for the labeling requirements for fertilizer. Specifically, the rule requires that all packages for fertilizer shall be labeled in accordance with the standards set forth by the American Plant Food Control Officials. Further, all fertilizer packages must clearly identified the percent guaranteed of particular elements contained within the fertilizer. The rule is being amended to make necessary clarifications as well as to allow Nickel (Ni) to be listed on the label.

- 8. Does the rule incorporate material by reference? Yes**
- 9. If the rule incorporates material by reference and the agency claims the material is exempt pursuant to R.C. 121.71 to 121.76, please explain the basis for the exemption and how an individual can find the referenced material.**
Pursuant to section 121.76 of the Revised Code, the code sections incorporated into this rule are exempt from compliance with sections 121.71 to 121.74 of the Revised Code.
- 10. If revising or re-filing the rule, please indicate the changes made in the revised or re-filed version of the rule.**

- 12. What are the estimated costs of compliance for all persons and/or organizations directly affected by the rule?**

Pursuant to ORC 905.32, no person shall manufacture or distribute in this state any type of fertilizer until a license to manufacture or distribute has been obtained by the manufacturer or distributor from the department of agriculture. Manufacturers and distributors must pay a licensing fee and submit an application. The licensee fee for manufacturers and distributors is set by statute at five dollars. There is minimal time for compliance in submitting the application.

- 13. Does the rule increase local government costs? (If yes, you must complete an RSFA Part B). No
- 14. Does the rule regulate environmental protection? (If yes, you must complete an RSFA Part C). No

III. Common Sense Initiative (CSI) Questions

- 15. Was this rule filed with the Common Sense Initiative Office? Yes
- 16. Does this rule have an adverse impact on business? Yes

- A. Does this rule require a license, permit, or any other prior authorization to engage in or operate a line of business? Yes

Pursuant to ORC 905.32, no person shall manufacture or distribute in this state any type of fertilizer until a license to manufacture or distribute has been obtained by the manufacturer or distributor from the department of agriculture. Manufacturers and distributors must pay a licensing fee and submit an application. The licensee fee for manufacturers and distributors is set by statute at five dollars. There is minimal time for compliance in submitting the application.

- B. Does this rule impose a criminal penalty, a civil penalty, or another sanction, or create a cause of action, for failure to comply with its terms? Yes

Should any product be outside the manufacturer's or distributor's guarantee they will either be required to re-label or re-formulate the product. The quantified impact on these changes can be as little as ten cents per package as a new label is required. Re-formulating the product requires more work and therefore more cost; however, these costs depend on the product, the variance, and the methods of reformulation.

- C. Does this rule require specific expenditures or the report of information as a condition of compliance? No
